

## Desired Results Assessments: Data Collection and Reporting for 2007 – 2008

As of February 2007, California's special education programs began collecting and reporting data twice a year on all preschool-age children with IEPs using the DRDP instruments. The table below specifies the data collection and reporting timelines for 2007-2008.

**Please note:**

- Eligible children are:
  - Preschool-age children with IEPs (three, four, and five year olds not enrolled in kindergarten); and
  - Those who enter special education prior to November 1 for inclusion in the fall assessment, and prior to April 1 for inclusion in the spring assessment.
- DRDP data submitted by assessors to SELPA consists of a Rating Record and Information Page for each child assessed.
- At any time during the year:
  - Teachers and data entry clerks will be able to print SEDRS reports; and
  - Administrators will be able to download data from the previous data collection period.
- Please check for updates on the Desired Results *access* Project web site: [www.draccess.org](http://www.draccess.org)

Timelines for DRDP Data Collection and Reporting 2007 – 2008			
Assessment Period	Observation and Documentation with the PS DRDP-R (with instructions for use with children with IEPs) or the DRDP <i>access</i>	DRDP Data Submitted to SELPA	Data Certified by SELPA and certification form faxed to (916) 327-3730
Fall, 2007	October 1 – November 30, 2007	December 1, 2008 – January 31, 2008	February 1, 2008
Spring, 2008	February 1 – April 30, 2008	May 1 – June 30, 2008	July 1, 2008
