

## Overview of DRDP Data Reporting for Preschool Children with IEPs

DRDP results for preschool-age children with Individualized Education Programs (IEPs) are reported two times per year to the California Department of Education/Special Education Division (CDE/SED) via the Special Education Desired Results System (SEDRS). SEDRS is an online data reporting system designed to report the DRDP data to CDE. SEDRS is accessed via through secure password accounts distributed by SELPAs.

The table below provides an overview of the data reporting system for the Desired Results Developmental Profile (DRDP) assessments for preschool special education.

<p><b>SELPAs determine a system for reporting DRDP data</b></p>	<p>SELPAs enter data into SEDRS:</p> <ul style="list-style-type: none"> <li>• Directly, or</li> <li>• Using a Local Management Information System (MIS) and then bulk upload DRDP records into SEDRS</li> </ul> <p>SELPAs identify the personnel who will input data:</p> <ul style="list-style-type: none"> <li>• Primary IEP service providers, and/or</li> <li>• Data entry clerks</li> </ul>
<p><b>IEP teams are responsible for documentation</b></p>	<p>IEP teams document the following for every child:</p> <ol style="list-style-type: none"> <li>1. The DRDP instrument used with the child - for IEPs dated on or after September 1, 2009, this will be the DRDP <i>access</i>.</li> <li>2. The adaptations that are used on a daily basis while the child participates in the preschool program and that are in place when completing the DRDP assessment.</li> </ol>
<p><b>Primary IEP service providers conduct the DRDP assessment</b></p>	<ul style="list-style-type: none"> <li>• Primary IEP service providers observe and document children’s progress on the DRDP instruments throughout the year.</li> <li>• Every three, four and five year old child with a preschool IEP is assessed.</li> </ul>
<p><b>Primary IEP service providers complete the DRDP Rating Record for each child twice a year</b></p>	<p>Each fall and spring, Primary IEP service providers complete their observations and documentation.</p> <ul style="list-style-type: none"> <li>• Fall observations are completed between October 1 and November 30.</li> <li>• Spring observations are completed between March 1 and April. 30.</li> <li>• A print version of the Rating Record with Information Page is then completed for each child.</li> </ul>
<p><b>Rating Records are submitted to the SELPA</b></p>	<p>The primary IEP service provider submits completed Rating Records/Information Pages to the SELPA office.</p>
<p><b>The SELPA ensures that the records are entered into SEDRS and reported to CDE</b></p>	<p>Fall DRDP data is entered and submitted between December 1 and January 31. Spring DRDP data is entered and submitted between May 1 and June 30.</p>
<p><b>DRDP data is certified</b></p>	<p>At the end of each reporting period, the SELPAs certify to CDE that their records are complete and on time.</p>
<p><b>DRDP reports are generated</b></p>	<ul style="list-style-type: none"> <li>• Reports of DRDP assessment results are available through SEDRS for SELPA and district administrators.</li> <li>• DRDP ratings are converted to scale scores so can be compared over time to describe the child’s progress.</li> <li>• Service providers may receive a Developmental Status and/or Developmental Progress Report for each child assessed by contacting their local administrator.</li> </ul>

## Training and technical assistance opportunities available from the Desired Results *access* Project

- Training and guidance resources for SEDRS are available at: [www.draccess.org/reporting.html](http://www.draccess.org/reporting.html), including:
  - SEDRS Specifications (for personnel using the Bulk Upload feature)
  - SEDRS Topics: short training guides about the SEDRS system
  - SEDRS Features and Updates: a video presentation for data managers
  - Frequently Asked Questions (FAQs): [www.draccess.org/faq.html](http://www.draccess.org/faq.html)
- Training occurs at regularly scheduled SELPA and CASEMIS meetings.
- Periodic updates will be provided through the SEDRS listserv. Subscribe at [www.draccess.org/reporting.html](http://www.draccess.org/reporting.html)
- Phone assistance with SEDRS is available through the Desired Results *access* Project at (800) 673-9220 or (707) 477-3553.
- Technical support is available via email at: [sedrs@draccess.org](mailto:sedrs@draccess.org)
