DRDP (2015)
An Early Childhood Developmental Continuum
Preschool Fundamental View

for use with preschool-age children
The DRDP (2015) was developed by the California Department of Education, Early Learning and Care Division and Special Education Division, with assistance from:
Berkeley Evaluation and Assessment Research Center, University of California, Berkeley
Desired Results Access Project, Napa County Office of Education
Desired Results Training and Technical Assistance Project, WestEd’s Center for Child and Family Studies

The DRDP (2015) is available at the California Department of Education Website at www.cde.ca.gov/sp/cd/ci/drdpforms.asp

Introduction to the DRDP (2015)
Welcome to the Desired Results Developmental Profile (2015) (DRDP (2015)): An Early Childhood Developmental Continuum. The DRDP (2015) is a formative assessment instrument developed by the California Department of Education for young children and their families used to inform instruction and program development.

Key Features of the DRDP (2015):
- The DRDP (2015) is administered in natural settings through teacher observations, family observations, and examples of children's work. Ongoing documentation of children's knowledge and skills in everyday environments is a recommended practice for early childhood assessment.
- The DRDP (2015) represents a full continuum of development from early infancy up through early kindergarten. It has two views: the Infant/Toddler view for use with children in infant/toddler programs, and the Preschool View, for children in preschool programs.
- The Preschool View has two forms: The Comprehensive View containing domains related to all areas of the Preschool Learning Foundations; and the Fundamental View, associated with essential domains of school readiness.
- The DRDP (2015) is designed for use with all children from early infancy up to kindergarten entry, including children with Individualized Family Service Plans (IFSPs) and Individualized Education Programs (IEPs).
- The DRDP (2015) takes into consideration the specific cultural and linguistic characteristics of California's diverse population of young children, with specific consideration for children who are young dual language learners (see section below).
- The DRDP (2015) was developed with the goal of ensuring that all children have the opportunity to demonstrate their knowledge and skills. To enable access to the assessment for diverse populations, the principles of Universal Design were followed.
- The DRDP (2015) includes domains that meet the federal Office of Special Education Programs (OSEP) child outcome reporting requirements for children with Individualized Family Service Plans (IFSPs) or Individualized Education Programs (IEPs).

Information about Selected Key Features
Three of these key features: (1) consideration of young children who are dual language learners, (2) universal design and adaptations for children with IFSPs and IEPs, and (3) a detailed description of the developmental domains that make up the instrument, are described in more detail to help teachers and service providers better understand and rate the measures of the DRDP (2015).

Young Dual Language Learners and the DRDP (2015)
Dual language learners are children learning two or more languages at the same time, as well as those children learning a second language while continuing to develop their first (or home) language. A child’s experience with one or more languages is an asset to build on in the early childhood setting. It is critical to consider the child’s communication in all the languages that he or she is learning in order to have an accurate picture of a child’s knowledge and skills. Young children, including children with disabilities, can successfully learn two or more languages. Learning two or more languages has linguistic, social, cognitive, academic, and cultural benefits. The path to learning one language shares many similarities with the path to learning two or more languages. There are also differences that must be taken into consideration when assessing young children who are dual language learners. Children may have vocabulary for concepts in one language and vocabulary for other concepts in another language. So it is important to assess children in all of the languages he or she understands and uses. The DRDP (2015) addresses cultural and linguistic responsiveness in two primary ways:

1. Teachers and service providers observe and document children's behavior in both the home language and English to obtain a more accurate profile of the children's knowledge and skills across developmental domains.
2. Teachers and service providers rate children's progress on two language development domains. The Language and Literacy Development (LLD) domain assesses all children’s progress in developing foundational language and literacy skills where ratings should be based on skills in all languages. The English-Language Development (ELD) domain assesses current knowledge and skills and progress in learning to communicate in English.

Universal Design and the DRDP (2015)
In the context of assessment, “Universal Design” refers to the development of assessments that are appropriate for all children to the greatest extent possible. Universal Design allows children the opportunity to demonstrate their knowledge and skills in a variety of ways. All young children are entitled access to, and meaningful participation in, age-appropriate, individually-appropriate and culturally-appropriate early childhood curricula and assessments. Teachers and service providers support children's access and participation by identifying and providing learning opportunities, materials, and teaching strategies in flexible and individualized ways and through a variety of learning modalities. DRDP (2015) assessors apply universal design when they carefully consider the various ways young children can demonstrate knowledge or skills that reflect mastery of a developmental level.
The Eight Domains of the DRDP (2015)

The DRDP (2015) is made up of eight domains. The focus of each domain is on the acquisition of knowledge, skills, or behaviors that reflect each domain's developmental constructs. The domains and sub-domains of the Fundamental View, essential to school readiness, are marked with an asterisk (*).

Approaches to Learning–Self-Regulation* (ATL-REG)
The ATL-REG domain assesses two related areas that are recognized as important for young children's school readiness and success: Approaches to Learning and Self-Regulation. These areas have been combined into one domain because of the strong connections between them. The Approaches to Learning skills include attention maintenance, engagement and persistence, and curiosity and initiative. The Self-Regulation skills include self-comforting, self-control of feelings and behavior, imitation, and shared use of space and materials.

Social and Emotional Development* (SED)
The SED domain assesses children's developing abilities to understand and interact with others and to form positive relationships with nurturing adults and their peers. The knowledge or skill areas in this domain include identity of self in relation to others, social and emotional understanding, relationships and social interactions with familiar adults, relationships and interactions with peers, and symbolic and sociodramatic play.

Language and Literacy Development* (LLD)
The LLD domain assesses the progress of all children in developing foundational language and literacy skills. These skills can be demonstrated in any language and in any mode of communication. Language and literacy skills in a child's first language form the foundation for learning English. Therefore, dual language learners may demonstrate knowledge and skills in their home language, in English, or in both languages. LLD measures should be completed for all infants, toddlers, and preschool-age children, including those who are dual language learners.

English-Language Development* (ELD)
The ELD domain assesses the progress of children who are dual language learners in learning to communicate in English. The developmental progression described in the four ELD measures is related to the child's experiences with English, not the child's age. Keep in mind that children acquire English in different ways and at different rates. Factors that affect English acquisition include degree of exposure to English, level of support provided in their home/first language, and individual differences such as age of exposure to English or the structure of the child's home/first language. The ELD measures should be completed only for preschool-age children whose home language is other than English.

Cognition, Including Math* and Science (COG)
The COG domain focuses on observation, exploration of people and objects, and investigation of objects and concepts. The knowledge or skill areas in this domain include spatial relationships, cause and effect, classification, number sense of quantity, number sense of math operations, measurement, patterning, shapes, inquiry through observation and investigation, documentation and communication of inquiry, and knowledge of the natural world.

Physical Development–Health* (PD-HLTH)
The PD-HLTH domain assesses motor development and the development of routines related to personal care, safety, and nutrition. The knowledge or skill areas in this domain include perceptual-motor skills and movement concepts, gross locomotor movement skills, gross motor manipulative skills, fine motor manipulative skills, active physical play, nutrition, safety, and personal care routines (hygiene, feeding, dressing).

History-Social Science (HSS)
The HSS domain focuses on learning about the expectations of social situations, how to participate within a group, and the relationship between people and the environment in which they live. The knowledge or skill areas in this domain include sense of time, sense of place, ecology, conflict negotiation, and responsible conduct.

Visual and Performing Arts (VPA)
The VPA domain focuses on awareness and engagement in four areas of artistic expression. The knowledge or skill areas in this domain include visual art, music, drama, and dance.

About the Measures of the DRDP (2015)
The levels for each DRDP (2015) measure describe a developmental continuum, ranging from earlier developing to later developing competencies. The DRDP (2015) includes three types of continua:

- **Full Continuum Measures**: describe development from early infancy to early kindergarten. These measures should be used with all infants, toddlers, and preschool-age children.
- **Earlier Development Measures**: describe development that typically occurs from early infancy through early preschool ages and may be used with preschool-age children under specific conditions (identified as Conditional measures).
- **Later Development Measures**: describe development that typically occurs from early preschool ages to early kindergarten. These measures should be used with all preschool-age children.
Conditional Measures for Preschool-Age Children

Some measures in the DRDP Preschool View are considered conditional measures that are only assessed when certain conditions are met. These measures should be used if they assist teachers and service providers in planning a child’s learning activities and supports, and documenting progress.

Conditional measures are used in three instances:
- If a preschool child has not developmentally moved beyond the four earlier-development measures.
- If a language other than English is spoken in the child’s home.
- If the child is still working on the health measures (required for all children with IEPs).

Please note that the Earlier Development Measures, and the Physical Development and Health measures are required for children with IEPs.

*Guidance for rating ELD measures for children who are dual language learners is provided in the section, “Young Dual Language Learners and the DRDP (2015)” on page Intro-2.

The Developmental Levels

The number of levels in a measure varies depending on the competencies that are appropriate for that measure’s developmental continuum. The levels are organized under four categories from early infancy up to kindergarten entry: Responding, Exploring, Building, and Integrating:

Responding (Earlier, Later)
Knowledge, skills, or behaviors that develop from basic responses (through using senses and through actions) to differentiated responses. Children generally engage in back-and-forth interactions with familiar adults and communicate through nonverbal messages.

Exploring (Earlier, Middle, Later)
Knowledge, skills, or behaviors that include active exploration including purposeful movement, purposeful exploration and manipulation of objects, purposeful communication, and the beginnings of cooperation with adults and peers. Children generally begin this period by using nonverbal means to communicate and, over time, grow in their ability to communicate verbally or use other conventional forms of language.

Building (Earlier, Middle, Later)
Knowledge, skills, or behaviors that demonstrate growing understanding of how people and objects relate to one another, how to investigate ideas, and how things work. Children use language to express thoughts and feelings, to learn specific early literacy and numeracy skills, and to increasingly participate in small group interactions and cooperative activities with others.

Integrating (Earlier)
Knowledge, skills, or behaviors that demonstrate the ability to connect and combine strategies in order to express complex thoughts and feelings, solve multi-step problems, and participate in a wide range of activities that involve social-emotional, self-regulatory, cognitive, linguistic, and physical skills. Children begin to engage in mutually supportive relationships and interactions.

Note that the developmental levels for the ELD domain differ from the above format as they represent the developmental progression for the acquisition of English as a second language during the early childhood years.
Definitions of Terms in the Navigation Maps

**Developmental Domain:** A crucial area of learning and development for children.

**Measure:** The developmental continuum along which a child’s observed behavior is assessed. Measures are the individual assessment items in the DRDP.

- **Full Continuum Measure:** Describes development from early infancy to early kindergarten.
- **Early Development Measure:** Describes development that typically occurs in infant/toddler and early preschool years.
- **Later Development Measure:** Describes development that typically occurs in the preschool years and early kindergarten.

**Definition:** Specifies the aspects of development to be observed.

**Developmental Level:** A point along a developmental progression for a particular measure that ranges from earlier to later levels of development.

**Descriptor:** Defines the behaviors that would be observed for a child at that developmental level.

**Example:** Specific behaviors you might see that would demonstrate that a child has reached mastery of a particular developmental level. Note that the examples provided in the DRDP are not the only way a child can demonstrate mastery of a developmental level.

The 3 Steps to Completing the DRDP (2015)

Step 1: Observation and Documentation

The DRDP (2015) focuses on the child’s behavior, knowledge, and skills. To capture a child’s behavior, the DRDP (2015) incorporates observation in natural settings.

While observing and collecting documentation, remember that words, phrases, and sentences can be communicated and understood in a variety of ways, including spoken in the child’s home language, signed, and through other communication modes (e.g., via a communication device). The teacher’s and service provider’s direct observations of a child are the primary method used to inform ratings and they should also use other sources of evidence to capture a more complete picture of a child’s knowledge and skills. Other sources of evidence include the following:

- Observations by others — including teachers, family members/caregivers, and other service providers or caregivers, obtained through interview or conversations
- Other documentation — including samples of children’s work, photographs, and video/audio recordings of children’s communication and behavior

Observations should occur over time, in typical settings:

- In the child’s typical program or settings such as child care, classrooms, or home;
- As the child interacts in familiar environments and routines with people he or she knows; and
- As the child engages in typical activities and routines.

The Important Role of Families in the Documentation Process

Family members have repeated opportunities to observe their child’s activities and interactions over time and in a variety of situations. Their perspectives, combined with teachers’ and service providers’ observations, provide a more complete and reliable picture of a child’s typical behaviors. Inviting family members to share observations of their child’s development and behavior is a recommended practice for the DRDP (2015). The opportunity to observe a child’s level of mastery is greatest when the child is interacting with a familiar adult. Because of this, it is helpful to observe a child interacting with family members. This is especially true for children who are new to a program or at the earliest levels (Responding Earlier and Responding Later). These observations can inform assessment decisions for all domains. They are particularly important for the SED and LLD domains since social interaction and communication skills are learned through repeated interactions with familiar adults.

Observation and Documentation for Young Dual Language Learners

Young dual language learners may demonstrate knowledge and skills in their home language, in English, or in both languages. They may also code-switch, which is using more than one language within a conversation. Therefore, communication in all languages the child uses should be considered when collecting documentation and completing the measures in all domains. The adult who is conducting observations and collecting documentation should speak the child’s home language. If not, the adult must receive assistance from another adult, who does speak the child’s home language. This may be an assistant teacher, director, parent, or other adult who knows the child.

Dual Language Learners’ Use of Code Switching

- Code switching is the use of multiple languages within a single conversation. It is a typical feature of learning two or more languages.
- As early as three years of age, children code switch to playfully experiment with the two languages and to serve their own social and communication goals. For example, children may code switch to emphasize or elaborate a point.
- Children might code switch when speaking with one person, or may use one language exclusively with one person and another language with another person.
- When children mix their two languages they use the grammatical rules of each language. For example, “I want leche” [“I want milk”] is an example of inserting a Spanish noun into a grammatically correct English sentence.

Using Adaptations

Adaptations are changes in the environment or differences in observed behavior that allow children with IFSPs or IEPs to demonstrate their knowledge and skills in typical environments. Seven broad categories of adaptations have been identified for children with IFSPs and IEPs for the DRDP (2015).

- The adaptations listed in the table below have been developed so that the assessment will more accurately measure a child’s abilities rather than the impact of a child’s disability (a more detailed description of the adaptations appears in Appendix D). Adaptations must be in place for the child during the normal course of the day, and they should also be in place during observations for the DRDP (2015). Everyone working with the child should be informed of any adaptations the child uses.
- New adaptations must not be introduced solely for the purpose of conducting the DRDP (2015) assessment.
- Consideration of adaptations should be made on a regular basis from early infancy and as the child develops and grows.
Seven Categories of Adaptations

Augmentative or Alternative Communication System
Methods of communication other than speech that allow a child who is unable to use spoken language to communicate with others.

Alternative Mode for Written Language
Methods of reading or writing used by a child who cannot see well enough to read or write or cannot hold and manipulate a writing utensil (e.g., pencil, pen) well enough to produce written symbols.

Visual Support
Adjustments to the environment that provide additional information to a child who has limited or reduced visual input.

Assistive Equipment or Device
Tools that make it possible or easier for a child to perform a task.

Functional Positioning
Strategic positioning and postural support that allow a child to have increased control of his body.

Sensory Support
Increasing or decreasing sensory input to facilitate a child’s attention and interaction in the environment.

Alternative Response Mode
Recognition that a child might demonstrate mastery of a skill in a unique way that differs from the child’s typically developing peers.

Step 2: Rating the Measures

Determining the Child’s Latest Level of Mastery
For each of the measures, determine the latest developmental level the child has mastered, and mark it appropriately.

The Descriptors and Examples
Consider the descriptors first, and then the examples, to determine which developmental level is most consistent with your observations and other documentation of the child's typical behavior. A child may demonstrate behaviors at more than one developmental level. Choose the level that most closely represents the knowledge, skills, or behaviors the child demonstrates most consistently.

Descriptors:
The descriptors define the knowledge, skills, or behaviors expected at each level along the developmental continuum of the measure (see Navigation Maps). Each descriptor is illustrated by several examples of behaviors that are consistent with that developmental level.

Most of the descriptors define discrete knowledge, skills, or behaviors. However, some include more than one behavior or skill, separated by “and,” “or,” or a semicolon (;) followed by “and.”

If the descriptor includes “or”:
The child only needs to demonstrate the behavior in one of the listed ways to demonstrate mastery for the developmental level. Either part of the descriptor may be observed to rate mastery at that level.

- For example, the descriptor for Exploring Later in LLD 5: Interest in Literacy is:
  
  Looks at books on own briefly or Chooses to join reading, singing, or rhyming activities led by an adult

If the child EITHER looks at books on own briefly OR chooses to join reading, singing, or rhyming activities led by an adult, mastery can be rated at this level.
If a descriptor includes “and”:
All parts of the descriptor are required for mastery and need to be observed together.

- For example, the descriptor for Building Earlier in ATL-REG 2: Self-Comforting is: Anticipates need for comfort and prepares self by asking questions, getting a special thing, or in other ways.

The child needs to demonstrate both anticipating a need for comfort and preparing self during the same observation.

If a descriptor includes a semi-colon (;) followed by “and”:
The child must demonstrate all the behaviors listed to rate the level as mastered, but not necessarily during the same observation within a DRDP rating period.

- For example, the descriptor for Exploring Later in SED 3: Relationships and Social Interactions with Familiar Adults is: Initiates activities with familiar adults; and Seeks out assistance or support from familiar adults.

To be rated as mastered at this level, the child must BOTH initiate activities with familiar adults AND seek out assistance or support from familiar adults. The assessor does not have to observe both behaviors during the same observation within a DRDP rating period.

Please note that key terms and phrases in the descriptors that may be new or have specific meaning to the measures are defined in the Glossary at the end of the instrument.

Examples:
Keep in mind these important points about examples:

- The examples are not a checklist of what the child must demonstrate to be rated at mastery of the knowledge, skills, or behaviors that reflect a developmental level.
- An example is one of many possible ways a child might demonstrate mastery of a developmental level. Teachers and service providers will identify other examples as they conduct their observations.
- Mastery is determined over time and across situations or settings.
- A child may not demonstrate any of the specific examples provided for a developmental level, but may demonstrate mastery in other ways that are consistent with the intent of the descriptor.
- Children demonstrate mastery in diverse and sometimes unique ways.
- Examples have not been written to include all areas of disability. Universal design is intended to support the inclusion of children with disabilities on the DRDP (2015). However, it is important to review the adaptations as well as understand the construct being measured when assessing children with disabilities.

Additional Rating Options

Emerging to the Next Developmental Level:
If your observations indicate that the child has demonstrated mastery for a developmental level and is also beginning to demonstrate knowledge, skills, or behaviors described for the next level (although not yet consistently across situations or settings), the child may be emerging to the next level.

To indicate emerging:
- First, mark the developmental level the child has mastered.
- Then, mark “emerging” if the child also demonstrates behaviors described for the next developmental level.

Notes about Emerging:
- You may mark emerging when rating full-continuum measures with infants and toddlers if the child has mastered the last level that can be rated and the child demonstrates some behaviors in the level that follows.
- Do not mark emerging if the child has mastered the latest level on a measure.
- Marking that the child is emerging to the next level does not affect the rating of mastery for the measure.

Child is Not Yet at the Earliest Developmental Level on a Later Development Measure:
If, after careful consideration, you determine that a preschool-age child is not yet demonstrating mastery of the earliest level of a later development measure, mark “Child is not yet at the earliest developmental level on this measure.”

Unable to Rate due to extended absence:
- This is used only when the child is absent from the program for such an extended period of time during the four to six weeks prior to submitting your DRDP data that you could not gather information to rate the measures.
- The following are NOT valid reasons to indicate Unable to Rate:
  - Not having enough time or enough information
  - The nature of a child’s disability or the severity of a child’s disability

The Responding Earlier level is designed to be inclusive of all children. Mark this earliest level unless the child demonstrates skills at a later level. Do not use Unable to Rate because you feel a child does not demonstrate the skills for the earliest level.
Rating Conditional Measures

If you are using the conditional measures for a preschool-age child, mark them on the Rating Record according to the following guidance:

<table>
<thead>
<tr>
<th>Measure</th>
<th>How to Mark the DRDP</th>
</tr>
</thead>
<tbody>
<tr>
<td>Earlier Development Measures</td>
<td></td>
</tr>
</tbody>
</table>
| ATL-REG 1: Attention Maintenance             | • These measures are required for all preschool-age children with IEPs  
  • If the measure is rated, determine the child's latest level of mastery and mark accordingly  
  • If the measure is not rated, mark the box, “Measure not rated: this child’s development is beyond the latest developmental level” |
| ATL-REG 2: Self-Comforting                   |                                                                                                                                                   |
| ATL-REG 3: Imitation                         |                                                                                                                                                   |
| COG 1: Spatial Relationships                 |                                                                                                                                                   |
| English-Language Development Measures        |                                                                                                                                                   |
| ELD 1: Comprehension of English (Receptive English) | • If these measures are rated, determine the child’s latest level of mastery and mark accordingly  
  • Check the box on the Information Page about the child’s home language  
  • Not required for children who are deaf or hard of hearing who are not learning a spoken language  
  • If these measures are not rated, mark the box, “Measure not rated: English is the only language spoken in this child’s home.” |
| ELD 2: Self-Expression in English (Expressive English) |                                                                                                                                                   |
| ELD 3: Understanding and Response to English Literacy Activities |                                                                                                                                                   |
| ELD 4: Symbol, Letter, and Print Knowledge in English |                                                                                                                                                   |
| Physical Development and Health Measures     |                                                                                                                                                   |
| PD-HLTH 5: Safety                            | • These measures are required for preschool-age children with IEPs  
  • In the Comprehensive View, PD-HLTH 7 and 8 are conditional. In the Fundamental View, PD-HLTH 5-8 and PD-HLTH 10 are conditional.  
  • If these measures are rated, determine the level of mastery and mark accordingly  
  • If these measures are not rated, check the box, “I did not rate this measure because it is not used for documenting progress or planning this child’s learning activities and supports” |
| PD-HLTH 6: Personal Care Routines: Hygiene   |                                                                                                                                                   |
| PD-HLTH 7: Personal Care Routines: Feeding   |                                                                                                                                                   |
| PD-HLTH 8: Personal Care Routines: Dressing |                                                                                                                                                   |
| PD-HLTH 10: Nutrition                        |                                                                                                                                                   |

**Step 3: Finalize the Assessment**

To finalize, simply review the assessment to make sure that you have entered a rating for all of the measures and that the Information Page is complete and up-to-date:

- For Early Learning and Care Division (ELCD) programs: enter your ratings into DRDP Online.
- For Special Education Division (SED) programs: enter your ratings into your SELPA’s MIS system. Check with your administrator for when and to whom your Rating Records are due.
Child Information

2. Statewide Student Identifier (10-digit SSID) __________________________

3. Agency Identifier ___________________________________________________(agency identifier and statewide student identifier can be the same)

4. Child's classroom or setting ____________________________________________

5. Birth date (mm/dd/yyyy) ______ / ______ / ________

6. Gender □ Male □ Female □ Non-binary

7. Initial date of enrollment in early childhood program (mm/dd/yyyy) ____ / ____ / ______

8a. What is this child's ethnicity? □ Yes, Hispanic or Latino □ No, not Hispanic or Latino

8b. What is this child's race? Mark one or more races to indicate what this child considers himself/herself to be.

☐ Asian Indian ☐ Black or African-American ☐ Cambodian ☐ Chinese ☐ Chinese
☐ Filipino ☐ Guamanian ☐ Hawaiian ☐ Hmong ☐ Hmong
☐ Japanese ☐ Intentionally left blank

☐ Korean ☐ Laotian ☐ Native American ☐ Other Asian ☐ Other Pacific Islander

☐ Samoan ☐ Tahitian ☐ Vietnamese ☐ White

9. Child's first name (Legal) _____________________________________________

10. Child's last name (Legal) _____________________________________________

11. Date DRDP (2015) was completed (mm/dd/yyyy) ______ / ______ / ________

12. Assessment period (e.g., Spring 2022) _________________________________

Observer Information

9. Agency __________________________ Site __________________________

10. Your name ______________________ Title ____________________________

11. Are you the primary teacher working with this child?

☐ Yes ☐ No (specify your relationship to the child) __________________________

12. Did another adult assist you with assessing this child?

☐ Yes (role/relation): ________________________________

☐ No

13. Child's home language(s) __________________________________________

Is a language other than English spoken in the child's home? ☐ Yes ☐ No

If yes, the ELD measures must be completed for a preschool-age child

14. What language(s) do you speak with this child? ____________________________

15. Did someone who understands and uses the child's home language assist you with completing the observation?

☐ Yes, role/relation: ________________________________

☐ No ☐ Not applicable (I understand and use the child's home language)

16. Child is enrolled in: Check all that apply.

☐ State Infant/Toddler Program ☐ Tribal Head Start

☐ State Preschool ☐ Migrant

☐ Head Start ☐ First 5

☐ Early Head Start ☐ Title 1

☐ Child Care Center ☐ Family Child Care Home

☐ Other

17. Does this child have an Individualized Education Program (IEP) or an Individualized Family Service Plan (IFSP)? ☐ Yes ☐ No ☐ Don't know

Child's tuition fees are

☐ Subsidized (tuition assistance) ☐ Not subsidized (full fee) ☐ Don't know
**Child Information**

5. Student ID (Issued by district) ________________________________

6. Statewide Student Identifier (10-digit SSID) ___________________________

7. Gender [ ] Male [ ] Female [ ] Non-binary

8. Birth date (e.g., 02/05/2019) _______ / _______ / ________

9. Special education enrollment. Check one.
   [ ] Individualized Family Service Plan (IFSP) [ ] Individualized Education Program (IEP)

**Child's Language**

10. Is a language other than English spoken in the child's home? [ ] Yes [ ] No
    If yes, complete the ELD measures for a preschool-age child.
    If the child is Deaf or Hard of Hearing and not learning a spoken language, mark “No” and do not complete the ELD measures.

**Special Education Information**

11. Special education eligibility. Check one.
    [ ] Autism [ ] Hard of Hearing [ ] Specific Learning Disability
    [ ] Deaf-Blindness [ ] Intellectual Disability [ ] Speech or Language Impairment
    [ ] Deafness [ ] Multiple Disability [ ] Traumatic Brain Injury
    [ ] Emotional Disturbance [ ] Orthopedic Impairment [ ] Visual Impairment
    [ ] Established Medical Disability [ ] Other Health Impairment [ ] Visual Support

12. Adaptations used in the assessment. Check all that apply.
    [ ] Alternative mode for written language [ ] Sensory positioning
    [ ] Alternative response mode [ ] Sensory support
    [ ] Assistive equipment or device [ ] Visual support
    [ ] Augmentative or alternative communication system [ ] None

**Child's Educational Setting**

13. Where does the child receive early care and education services, including special education services? Check all that apply.
    [ ] Child Care Center [ ] Remote Service Delivery/Distance Learning
    [ ] District Preschool Program [ ] Separate Class/Special Day Class
    [ ] Early Head Start/Head Start [ ] Separate School for Children with Disabilities
    [ ] Family Child Care Home [ ] Service Provider Location (e.g. clinic or office)
    [ ] First 5 [ ] State Preschool
    [ ] Home [ ] Title 1
    [ ] Migrant Program [ ] Tribal Head Start
    [ ] Part C Early Intervention Program [ ] Other ___________________________

**Program Information**

14. SELPA ____________________________

15. District of accountability ____________________________

**Assessor Information**

16. Name of primary special education assessor ____________________________

17. Role. Check one.
    [ ] Early Intervention Specialist [ ] Speech/Language Pathologist
    [ ] Occupational/Physical Therapist [ ] Teacher of the Deaf/Hard of Hearing
    [ ] Program Specialist or Administrator [ ] Teacher of the Visually Impaired
    [ ] Special Education Teacher [ ] Other ____________________________

18. DRAccessReports.org account email ____________________________

19. Did you collaborate with someone to complete the assessment? [ ] Yes [ ] No
    If yes, check all that apply.
    [ ] Family [ ] Speech/Language Pathologist
    [ ] General Education Teacher or Child Care Provider [ ] Occupational/Physical Therapist
    [ ] Other ____________________________

*Use this Information Page for a child with an Individualized Family Service Plan (IFSP) or Individualized Education Program (IEP) served by a California Department of Education program.*
The table below provides definitions for various fields in the DRDP (2015) Rating Record. These fields are used to gather information about the child, their educational setting, and the assessors involved in the evaluation.

### Field Definitions

<table>
<thead>
<tr>
<th>#</th>
<th>Field</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Child’s first name</td>
<td>Fill in the child’s legal name that is on the IFSP or IEP.</td>
</tr>
<tr>
<td>2</td>
<td>Child’s last name</td>
<td>Fill in the child’s legal name that is on the IFSP or IEP.</td>
</tr>
<tr>
<td>3</td>
<td>Date DRDP (2015) was completed</td>
<td>Enter the date the DRDP (2015) Rating Record was completed as mm/dd/yyyy.</td>
</tr>
<tr>
<td>4</td>
<td>Assessment period</td>
<td>Enter the assessment period for which the assessment is being completed, e.g., fall 2022 or spring 2023.</td>
</tr>
<tr>
<td>5</td>
<td>Student ID</td>
<td>Enter the unique identifier assigned by the SELPA or district to the child.</td>
</tr>
<tr>
<td>6</td>
<td>Statewide Student Identifier</td>
<td>Enter the unique 10-digit number, issued by the California Department of Education, assigned to the child. If the child does not have an SSID, contact your administrator to obtain this number.</td>
</tr>
<tr>
<td>7</td>
<td>Gender</td>
<td>Check the box indicating the gender identification of the child using information obtained from the child’s family.</td>
</tr>
<tr>
<td>8</td>
<td>Birth date</td>
<td>Enter the child’s date of birth as mm/dd/yyyy.</td>
</tr>
<tr>
<td>9</td>
<td>Special education enrollment</td>
<td>Check only one box—either for a child age birth to three with an Individualized Family Service Plan (IFSP); or a child age 3-5 with a preschool Individualized Education Program (IEP).</td>
</tr>
<tr>
<td>10</td>
<td>Child’s language</td>
<td>• If a language other than English is spoken in the child’s home, check “Yes” and complete the English Language Development (ELD) measures.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• If no other language than English is spoken in the child’s home, check “No” and do not complete the ELD measures.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• If the child is Deaf or Hard of Hearing and not learning a spoken language, check “No” and do not complete the ELD measures.</td>
</tr>
<tr>
<td>11</td>
<td>Special education eligibility</td>
<td>Check the primary disability category contributing to the child’s eligibility for special education. Check only one box. If a child has more than one type of disability, the child can be reported under Multiple Disabilities.</td>
</tr>
<tr>
<td>12</td>
<td>Adaptations used in the assessment</td>
<td>Adaptations support a child’s participation in everyday activities and routines. Check the boxes for the categories of adaptations that are used in the child’s daily activities and routines that must be in place during the assessment. Check all that apply and record on the IEP.</td>
</tr>
<tr>
<td>13</td>
<td>Child’s educational setting</td>
<td>This lists the educational settings where the child receives early care and education services, including special education. Check the box(es) where the child receives educational services, including both general education and special education. Check all that apply.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Child Care Center: can be private or state-subsidized for children birth to five.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Private Preschool: for children ages three to five.</td>
</tr>
<tr>
<td>14</td>
<td>SELPA</td>
<td>Enter the name of the SELPA that is responsible for providing services to the child and reporting data. If you do not know the name of the SELPA, check with your administrator.</td>
</tr>
<tr>
<td>15</td>
<td>District of accountability</td>
<td>Enter the name of the district that is responsible for ensuring that special education services are provided for a child with an IFSP or IEP whether or not the services are provided within this district.</td>
</tr>
<tr>
<td>16</td>
<td>Name of primary special education assessor</td>
<td>Enter the name of the person responsible for completing the assessment. Others on the IEP team or who know the child well may contribute their observations to the measure ratings; however, the IEP team should designate one person to complete and submit the rating record.</td>
</tr>
<tr>
<td>17</td>
<td>Role</td>
<td>Check the box for the job title of the primary person completing the assessment. If the role is not on the list, check “Other.”</td>
</tr>
<tr>
<td>18</td>
<td>DR Access Reports account email</td>
<td>DR Access Reports is where you generate reports of DRDP (2015) results. If you enter your email address for your DR Access Reports account, your results will be automatically transferred every night. (This email address may be different than the one you use in SEIS, SIRAS, or DR Access Learn). You can create an account at DRAccessReports.org.</td>
</tr>
<tr>
<td>19</td>
<td>Collaboration to complete the assessment</td>
<td>If others worked with you to complete the DRDP (2015), check “Yes” and then check the box(es) that identify their role(s).</td>
</tr>
</tbody>
</table>
Quick Guide to Rating the Measures

1. **Review your documentation/evidence.**
   Review your own observation notes, observations from others (including teachers, family members/caregivers, and other service providers or caregivers, obtained through interview or conversations), and other documentation, including samples of children's work, photographs, and video/audio recordings of children's communication and behavior.

2. **Carefully read the definition and the descriptors, looking for mastery.**
   Read the descriptors before you read the examples. As you read the descriptors, try to narrow down which one is most consistent with your observations and other documentation of the child's typical behavior. A developmental level is mastered if the child demonstrates the knowledge, behaviors, and skills defined at that level:
   - Consistently over time
   - In different situations or settings

3. **After you read the descriptors, consider the examples.**
   The examples represent only some of the possible ways a child might demonstrate mastery. They are not a checklist of what the child must demonstrate. It is possible that a child does not demonstrate any of the specific examples provided, but does demonstrate mastery in other ways that are consistent with the intent of the descriptor.

4. **Based on your careful reading of the descriptors and examples and a review of your documentation, determine the child's level of mastery.**
   Once you've determined the latest developmental level the child has mastered, mark it appropriately.

5. **Indicate if the child is emerging to the next level (when the option to mark emerging is available).**
   If your observations indicate that the child has demonstrated mastery for a developmental level and is also beginning to demonstrate knowledge, skills, or behaviors described for the next level (although not yet consistently across situations or settings), the child may be emerging to the next level.

---

**Important Note:** When reading the descriptors, be sure you understand and pay attention to semicolons and the words “or” and “and.” Most descriptors define a single skill or behavior, but some include more than one. If the descriptor includes:

- The word “or,” the child only needs to demonstrate the behavior in one of the ways listed for the developmental level to be considered mastered.
- The word “and,” all parts of the descriptor are required for mastery and need to be observed together.
- A semi-colon (;) followed by the word “and,” the child must demonstrate all the behaviors listed to master the level, but not necessarily during the same observation.

Remember, the examples illustrate only some of the many ways a child may demonstrate mastery.

## Rating Record (for use with preschool-age children with IEPs)

For use with preschool-age children with Individualized Education Programs (IEPs)

The Rating Record is to be used with the DRDP (2015) Instrument to keep track of each child's developmental levels as you complete the assessment. Mark the developmental level the child has mastered for every measure.

## Developmental Domain: ATL-REG — Approaches to Learning—Self-Regulation

### ATL-REG 1: Attention Maintenance

Child develops the capacity to pay attention to people, things, or the environment when interacting with others or exploring play materials

<table>
<thead>
<tr>
<th>Mark the latest developmental level the child has mastered:</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Responding</strong></td>
</tr>
<tr>
<td>Earlier</td>
</tr>
<tr>
<td>Attends or responds briefly to people, things, or sounds</td>
</tr>
</tbody>
</table>

#### Possible Examples
- Pays attention to a moving mobile.
- Quiets to the voice of a familiar person.
- Gazes at the smiling face of a familiar person.

<p>| | | | | | | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Attends or responds briefly to people, things, or sounds</td>
<td>Shifts attention frequently from one person or thing to another</td>
<td>Maintains attention, on own or with adult support, during brief activities</td>
<td>Maintains attention, with adult support, during activities that last for extended periods of time</td>
<td>Maintains attention on own during activities that last for extended periods of time</td>
<td><strong>There are no later levels for this measure</strong></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### Possible Examples
- Turns attention toward an interesting toy, then back to an adult or a child.
- Actively shifts interest from one child to another playing close by.
- Drops one thing in order to reach for another.
- Briefly watches other children playing and then resumes play with a toy.
- Resumes playing at sand table when an adult joins in digging.
- Dumps toy animals from container, puts animals back in the container, and then dumps them out again.
- Listens to a book from beginning to end and then gestures for an adult to read it a second time.
- Starts working on a simple puzzle with an adult and continues when the adult steps away briefly.
- Continues playing with toy cars, adding a bridge offered by an adult sitting nearby.
- Makes a pile of pretend pancakes with play dough on own and then offers them to peers.
- Builds multiple towers with interlocking blocks.
- Looks through several books on own in library corner during the morning.
- Listens to audio books while looking at enlarged pictures related to the story on a screen, on own, during the morning.
### Developmental Domain: ATL-REG — Approaches to Learning—Self-Regulation

#### ATL-REG 2: Self-Comforting

Child develops the capacity to comfort or soothe self in response to distress from internal or external stimulation

<table>
<thead>
<tr>
<th>Mark the latest developmental level the child has mastered:</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Responding</strong></td>
</tr>
<tr>
<td>Earlier</td>
</tr>
<tr>
<td>Responds to internal or external stimulation in basic ways</td>
</tr>
</tbody>
</table>

**Possible Examples**

- Cries when hears a loud noise.
- Closes eyes when taken into bright sunlight.
- Brings fist to mouth and fusses when hungry.
- Sucks thumb or fist to soothe self.
- Turns away from sensory experiences such as loud noises, bright lights, or specific textures.
- Nuzzles face into a blanket or a familiar adult's shoulder when unfamiliar adults approach.
- Retrieves a familiar object, such as a blanket, to soothe self when upset.
- Gestures "up" to a familiar adult to be picked up when sleepy.
- Seeks contact with a familiar adult when a toy is taken by another child.
- Softly hums or vocalizes to self when lying down for naptime.
- Goes to cubby and gets a photo of family when upset after a parent leaves.
- Seeks out a cozy place to get away from active play of other children.
- Remains seated in a small group activity while manipulating a favorite toy.
- Asks what's going to happen next, to get ready to transition to a new activity.
- Requests favorite book to read with parent before the parent leaves.
- Moves away and covers ears when an adult brings out a vacuum to clean spilled sand on the floor.

- Child is emerging to the next developmental level
- Unable to rate this measure due to extended absence
### Developmental Domain: ATL-REG — Approaches to Learning—Self-Regulation

#### ATL-REG 3: Imitation

Child mirrors, repeats, and practices the actions or words of others in increasingly complex ways

<table>
<thead>
<tr>
<th>Mark the latest developmental level the child has mastered:</th>
<th>Responding</th>
<th>Exploring</th>
<th>Building</th>
<th>Integrating</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Earlier</strong></td>
<td><strong>Later</strong></td>
<td><strong>Earlier</strong></td>
<td><strong>Later</strong></td>
<td><strong>Earlier</strong></td>
</tr>
<tr>
<td>Responds to facial expressions or vocalizations in basic ways</td>
<td>Imitates approximations of single simple actions or sounds when interacting with others</td>
<td>Imitates actions, or Repeats familiar words or gestures by others when interacting with them</td>
<td>Imitates a few actions, or Repeats familiar actions or words experienced at an earlier time</td>
<td>Imitates multiple steps of others' actions, or Repeats phrases, experienced at an earlier time</td>
</tr>
<tr>
<td>Possible Examples</td>
<td>• Makes a sound like “Mmmmmm” after an adult makes the “Mmmmm” sound during feeding.</td>
<td>• Opens and shuts hands as an adult leads open-shut-them finger play.</td>
<td>• Holds a toy telephone to ear and says, “Hello.”</td>
<td>• Communicates, “Be safe,” (using adult intonation) when friends begin to move too fast through the classroom.</td>
</tr>
<tr>
<td></td>
<td>• Smiles when an adult smiles.</td>
<td>• Raises arms in the air, following an adult’s actions, during a game of “So big!”</td>
<td>• Places doll in front of a toy shopping cart and wheels it around the room, placing objects in the cart.</td>
<td>• Pretends to cook a meal by taking out play food and pots, turning on a toy stove, and stirring the pots with a spoon.</td>
</tr>
<tr>
<td></td>
<td>• Widens eyes and raises eyebrows after observing these movements on an adult’s face during an interaction.</td>
<td>• Communicates, “Bye-bye,” and waves, after an adult communicates, “Bye-bye,” and waves.</td>
<td>• Engages in exercise movements that adults typically do.</td>
<td>• Dresses up with fancy shoes and clothes in dress-up area, and communicates, “It’s time to party.”</td>
</tr>
</tbody>
</table>

- ○ Child is emerging to the next developmental level
- ○ Unable to rate this measure due to extended absence

Conditional Measure

- ○ Measure not rated: the child’s development is beyond the latest developmental level.
  (Required for children with IEPs)
### Developmental Domain: ATL-REG — Approaches to Learning—Self-Regulation

#### ATL-REG 4: Curiosity and Initiative in Learning

Child explores the environment in increasingly focused ways to learn about people, things, materials, and events

<table>
<thead>
<tr>
<th>Possible Examples</th>
<th>Responding</th>
<th>Exploring</th>
<th>Building</th>
<th>Integrating</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Orients toward a noise.</td>
<td>Responds to people, things, or sounds</td>
<td>Notices new or unexpected characteristics or actions of people or things</td>
<td>Explores people or things in the immediate environment</td>
<td>Explores through simple observations, or manipulations, or by asking specific questions</td>
</tr>
<tr>
<td>• Turns head toward a person who comes into view or begins talking.</td>
<td></td>
<td>Explores new ways to use familiar things, including simple trial and error</td>
<td>Explores by engaging in specific observations, manipulations, or by asking specific questions</td>
<td>Carries out simple investigations using familiar strategies, tools, or sources of information</td>
</tr>
<tr>
<td>• Looks at a mobile.</td>
<td></td>
<td></td>
<td></td>
<td>Carries out multi-step investigations, using a variety of strategies, tools, or sources of information</td>
</tr>
</tbody>
</table>

- Vocalizes or gazes at a familiar adult who makes an animated facial expression or unusual noise.
- Smiles when an adult begins singing a song.
- Moves arms or legs when a mobile begins moving overhead.
- Bangs a drum with hands repeatedly.
- Touches hair of another child.
- Pats, pulls on, or turns pages of a board book.
- Watches intently as an adult prepares snack.
- Paints on paper and on arm when given a paintbrush and paint.
- Molds sand using a cup.
- Tries using utensils to work with play dough.
- Moves around a fish bowl to continue watching a fish as it swims around objects.
- Drops a marble in a maze and follows its path as it rolls to the bottom.
- Asks, “What’s that doing?” when seeing or hearing a bulldozer across the street while on a neighborhood walk.
- Puts a dry sponge in water and then squeezes it to see what happens.
- Observes a snail and asks, “Why do snails have shells?”
- Compares color or shape of leaves gathered on a nature walk.
- Uses a magnetic wand to figure out which objects on a table it will lift up.
- Uses a magnifying glass to observe a caterpillar closely, and describes its pattern of colors and number of legs.
- Places a variety of objects in water to see which will float and which will sink.
- Uses a communication device to learn about the new pet guinea pig.
- Examines images from informational books or a computer to learn about the habitats of different animals.
- Looks through a prism held up to the light, directing its motion until a rainbow of colors appears on the wall.
- Sets up a project, with an adult, that involves investigating the growth of lima bean plants with different amounts of water, and documents their growth.

Mark the latest developmental level the child has mastered:

- [ ] Child is emerging to the next developmental level
- [ ] Unable to rate this measure due to extended absence
### Developmental Domain: ATL-REG — Approaches to Learning—Self-Regulation

#### ATL-REG 5: Self-Control of Feelings and Behavior

Child increasingly develops strategies for regulating feelings and behavior, becoming less reliant on adult guidance over time

**Mark the latest developmental level the child has mastered:**

<table>
<thead>
<tr>
<th>Responding</th>
<th>Exploring</th>
<th>Building</th>
<th>Integrating</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Earlier</strong></td>
<td><strong>Later</strong></td>
<td><strong>Earlier</strong></td>
<td><strong>Later</strong></td>
</tr>
</tbody>
</table>

**Calms when comforted by an adult**

- **Possible Examples**
  - Lessens or stops crying when picked up by an adult.
  - Relaxes in an adult’s arms when being held.
  - Quiets to the voice of a familiar adult.
  - Reaches toward a familiar adult to be comforted and nestles into the adult when held.
  - Vocalizes to a familiar adult and calms when the adult reaches over to pat child’s stomach.
  - Looks toward a familiar adult when startled, andrelaxes when picked up.
  - Gets up and looks for an adult after falling down, and then resumes play when the adult gives a reassuring look.
  - Stops crying after an adult offers a toy similar to the toy another child took.
  - Calms when an adult moves to sit closer on the floor.
  - Lets go of another child’s toy and accepts a different toy after a familiar adult communicates, “She’s playing with the blue truck. You can use the red one.”
  - Gets a towel when an adult suggests that they work together to clean up a spill that the child is upset about.
  - Accepts an adult’s invitation to move closer, after noticing child’s worried look when an unfamiliar adult enters the room.
  - Waits to ride a favorite tricycle without trying to take it from another child.
  - Pauses and sighs after tower falls down, and then starts to rebuild it when an adult asks, “Do you want to make it again?”
  - Frowns, but goes to play with something else, when an adult communicates that it is not yet time to go outside.
  - Considers another child return a favorite doll, but when refused, asks a familiar adult for help.
  - Communicates feelings of anger, through words or gestures, to a familiar adult when another child takes a toy without asking.
  - Communicates, “Tôi muốn ngố ở đây,” (“I want to sit here,” in Vietnamese), when upset that there are no empty chairs near a friend.
  - Offers a toy in exchange when another child has a desired toy.
  - Communicates that it is not yet time to go outside.
  - Communicates, “I want a turn. Can I use the scooter after you go around two times?” after watching another child ride for a while.
  - Communicates, “Don’t push!” to another child trying to fit at the water table, and then says, “Here’s a place,” and moves over.
  - Communicates to self, in words or signs, that the monsters are just pretend, when attending to a scary story.
  - Uses a communication device to suggest a strategy to share the limited number of popular art materials during a collage project.

○ Child is emerging to the next developmental level
○ Unable to rate this measure due to extended absence
### Developmental Domain: ATL-REG — Approaches to Learning–Self-Regulation

#### ATL-REG 6: Engagement and Persistence

**Child increasingly persists in understanding or mastering activities, even if they are challenging or difficult**

**Mark the latest developmental level the child has mastered:**

<table>
<thead>
<tr>
<th>Responding</th>
<th>Exploring</th>
<th>Building</th>
<th>Integrating</th>
</tr>
</thead>
<tbody>
<tr>
<td>Earlier</td>
<td>Later</td>
<td>Earlier</td>
<td>Middle</td>
</tr>
<tr>
<td></td>
<td>Participates in a simple activity briefly</td>
<td>Selects activities, but switches quickly from one to another, even with adult support to help focus on one activity</td>
<td>Continues self-selected activities with adult support, even though interest briefly shifts to other activities</td>
</tr>
<tr>
<td></td>
<td>• Puts a ring on and off of a ring stack a few times.</td>
<td>• Strings large beads with an adult to make a necklace, briefly watches another child who brings magnets to the table, and then continues stringing beads.</td>
<td>• Continues working on a difficult puzzle, asking an adult for help when needed.</td>
</tr>
<tr>
<td></td>
<td>• Fills and dumps sand from a bucket.</td>
<td>• Selects a puzzle to work on with an adult, works on it together for a short time, and then wanders off, even with the adult’s encouragement to continue.</td>
<td>• Continues looking at a book as an adult encourages other children entering the same area to find a book.</td>
</tr>
<tr>
<td></td>
<td>• Shakes a bell while others are singing.</td>
<td>• Joins a small group and attends briefly to an adult reading a book, and then shifts attention to another activity.</td>
<td>• Asks adult for headphones, while listening to a story on tape, when other children begin to play noisily nearby.</td>
</tr>
<tr>
<td></td>
<td>• Uses hands to smear finger paint.</td>
<td>• Pauses to watch children running by while scooping sand, but returns to scooping when the adult offers another sand toy.</td>
<td>• Repeatedly tries to trace around own hand.</td>
</tr>
<tr>
<td></td>
<td>• Activates a switch toy.</td>
<td>• Continues working on a difficult puzzle, asking an adult for help when needed.</td>
<td>• Completes an obstacle course using a walker, even on bumpy ground.</td>

- **Child is not yet at the earliest developmental level on this measure**
- **Child is emerging to the next developmental level**
- **Unable to rate this measure due to extended absence**

**Possible Examples**

- Chooses to play with doll with red hair on repeated occasions.
- Chooses to play with the same toy dinosaur every day.
- Selects the green marker every time when at the art table.

- Takes another child’s toy, and seems surprised by the other child’s protest.
- Picks up a purple marker after another child put it down momentarily to do something else.
- Squeezes in between other children at the water table, making it difficult for the other children to continue their play.

- Keeps all of the crayons nearby even if only using one or two colors.
- Places favorite dolls behind back when other children are playing in the doll area.

- Holds onto big brushes while painting at the table, but then gives other children some big brushes, with adult prompting.
- Keeps favorite crayons nearby, and pushes the basket of other colored crayons to the center of the table.
- Lets another child take a book from a pile nearby, but holds onto a few favorite books.

- Communicates to another child, “That’s mine [referring to a carpet square]. Go get one from the pile over there,” while getting ready for story time.
- Gets riding toys out of the shed to give to other children, according to the usual classroom practice.
- Communicates, “It’s my turn when you are done,” to a child who is using the tricycle.
- Puts name on waiting list when wanting to have a turn at the computer, after reminder by an adult that there is a waiting list.

- Brings a carpet square to another child while getting ready for story time, without being asked.
- Makes room for another child who wants to join in building a spaceship, and then offers a piece for the child to add.
- Uses a communication device to ask another child to join in making a necklace.
### SED 1: Identity of Self in Relation to Others

Child shows increasing awareness of self as distinct from and also related to others

<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
- **Responds to faces, voices, or actions of other people**
  - Looks at faces.
  - Turns head toward an adult during feeding.
  - Grasps an adult’s finger when palm of child’s hand is touched.
- **Shows awareness of what to expect from familiar people by responding to or anticipating their actions**
  - Smiles when an adult continues after pausing during a game of pattycake.
  - Looks toward the location of where an adult’s face will reappear during a game of peek-a-boo.
  - Kicks legs in excitement or adjusts body when a familiar adult leans forward to pick child up.
- **Adjusts behavior in response to emotional expressions of familiar people, especially in novel or uncertain situations**
  - Pays attention to a familiar adult’s facial expressions when a child continues after pausing during a game of pattycake.
  - Pauses after reaching toward a peer’s toy, to check on a less familiar adult’s response.
  - Stares to climb on a table, but pauses in response to an adult’s cautionary look and warning.
- **Adjusts behavior in response to emotional expressions of people who are less familiar**
  - Moves or looks toward a familiar adult when a less familiar adult enters the room.
  - Pauses after reaching toward a peer’s toy, to check on a less familiar adult’s response.
  - Stares to climb on a table, but pauses in response to an adult’s cautionary look and warning.
- **Identifies own or others’ feelings**
  - Communicates, “También me gusta pintar, me hace feliz,” [“I like to paint, too; it makes me happy,” in Spanish] after noticing a child at an easel.
  - Communicates that a crying child is sad.
  - Points to “angry” picture on emotion chart while looking at a peer.
- **Communicates, with adult assistance, about feelings that caused own behavior or others’ behavior**
  - Responds that a friend is sad, when an adult asks, “Why did your friend get his blanket?”
  - Communicates that the turtle was scared, when an adult asks, “Why did the turtle go into its shell?”
- **Communicates ideas about why one has a feeling or what will happen as a result of a feeling**
  - Communicates, “Magagalit siya kapag bumagsak na naman ang kanyang tulay,” [“He’ll be mad if his bridge is knocked down again,” in Tagalog].
  - Uses a communication device to express, “I feel sleepy when it gets dark.”
  - Communicates that another child plays with everyone because he is so friendly.

- **Middle**
  - Communicates to a peer, “You’re silly,” when the peer starts giggling and other children join in.
  - Communicates that a peer is shy when seeing her hide as an unfamiliar adult approaches.
  - Communicates that another child plays with everyone because he is so friendly.

- **Later**
  - Unable to rate this measure due to extended absence
## SED 3: Relationships and Social Interactions with Familiar Adults

Child develops close relationships with one or more familiar adults (including family members) and interacts in an increasingly competent and cooperative manner with familiar adults.

### Mark the latest developmental level the child has mastered:

</table>

### Possible Examples

- **Responding**
  - Widens eyes or brightens face at the face of a familiar adult.
  - Orient toward a familiar adult’s voice.
  - Quiets when picked up by a familiar adult.

- **Exploring**
  - Reaches for a familiar adult when being held by another adult.
  - Vocalizes at a familiar adult to gain the adult’s attention.
  - Laughs in anticipation before a familiar adult nuzzles child’s neck.
  - Places toy on a familiar adult’s lap, goes to get another toy, and then places that toy on the adult’s lap.
  - Puts hands near head to continue a game of peek-a-boo when a familiar adult pauses.
  - Repeatedly hands little cars to a familiar adult to continue a joint activity.
  - Grasps a familiar adult’s hand to gain attention, and then gestures to begin a finger-play game.
  - Communicates interest in looking at a book with a familiar adult.
  - Brings a blanket to a familiar adult and then climbs into the adult’s lap when upset.
  - Gestures to a familiar adult for assistance about how to remove a tight lid from a canister.
  - Communicates to a familiar adult, “Want some tea?” during a pretend tea party.
  - Completes a simple puzzle with a familiar adult, taking turns to fit pieces.
  - Shares rocks collected while playing outside with a familiar adult.
  - Uses an electronic tablet to play a game with a familiar adult.
  - Asks a teacher why another child is not going outside with the group.
  - Communicates to an adult, “What’s the bee doing?” while watching a bee fly from flower to flower or sharing a book together about bees.
  - Asks a familiar adult for a suggestion about how to build the tower to keep it from falling down.
  - Offers to place napkins and cups on the table when a familiar adult is preparing a snack.
  - Brings a board game to a familiar adult and communicates an interest in playing together.
  - Gives pretend food to a familiar adult and communicates, “I made some hamburgers for you. You tell me what you want to drink.”
  - Works together with a familiar adult to complete a puzzle over several days, organizing pieces in different ways.
  - Plans a gardening activity with a familiar adult, communicating by signing with the materials needed.
  - Gathers possible construction materials, such as glue, paper, and scissors, from a supply shelf to contribute to a building project with a familiar adult.
  - Works with a familiar adult and a group of children to make a piñata over two days, offering alternatives for its shape and construction and what will go inside.

- **Integrating**
  - Works cooperatively with familiar adults, over sustained periods, to plan and carry out activities or to solve problems.

○ Child is emerging to the next developmental level
○ Unable to rate this measure due to extended absence
### Developmental Domain: SED — Social and Emotional Development

#### SED 4: Relationships and Social Interactions with Peers

Child becomes increasingly competent and cooperative in interactions with peers and develops friendships with several peers.

#### Possible Examples

- **Responding**
  - Cries when hearing the sound of another child crying.
  - Orient toward other children.
  - Notices another child nearby.

- **Exploring**
  - Moves excitedly when another child comes near.
  - Reaches toward another child to gain attention.
  - Smiles at another child.

- **Building**
  - Selects a truck when other children nearby are playing with trucks.
  - Explores a toy alongside another child who is also exploring.
  - Reaches for a toy in the water alongside other children at the water table.

- **Integrating**
  - Builds a train track with two friends, taking turns connecting the track pieces.
  - Plays superheroes with peers, planning different characters and scenarios.
  - Joins peers in planning and gathering materials needed for a nature walk, such as nets, baskets, and bags.

**Possible Examples**

- **Responding**
  - Cries in response to a loud voice.
  - Looks toward a lamp when it is turned on.
  - Moves arm in response to a touch.

- **Exploring**
  - Reaches toward an adult's glasses.
  - Grabs a toy, shakes it, and then shakes it again.
  - Picks up a toy and mouths it.
  - Gazes intently at an adult’s changing facial expressions.

- **Building**
  - Rocks a doll in arms.
  - Uses a brush on a doll’s hair.
  - Pushes a toy car along the floor.
  - Places objects from around the room in a toy shopping cart.

- **Integrating**
  - Pretends to be a doctor and takes care of a stuffed bear that is “sick.”
  - Makes a pretend cake in the sandbox and offers a “taste” to an adult.
  - Makes a “pizza” out of play dough and puts it in the play oven.
  - Sits in a box, pretending it is a boat.

- **Responds to people or objects in basic ways**
  - Uses or combines objects in functional or meaningful ways

- **Engages in pretend-play sequences with others around a shared idea**

- **Engages in pretend-play sequences with others by organizing and negotiating roles or rules around a shared elaborated idea**

- **Engages in roles in pretend-play sequences with others**

- **Engages in roles in pretend-play sequences with others by organizing and negotiating roles or rules around a shared elaborated idea**

- **Cries in response to a loud voice.**
- **Looks toward a lamp when it is turned on.**
- **Moves arm in response to a touch.**
- **Responds to people or objects in basic ways**
- **Engages in pretend-play sequences with others around a shared idea**
- **Engages in pretend-play sequences with others by organizing and negotiating roles or rules around a shared elaborated idea**

- **Earlier**
- **Later**
- **Middle**
- **Responding**
- **Exploring**
- **Building**
- **Integrating**

- **Possible Examples**
  - Uses a stacking ring as a bagel.
  - Holds a rectangular block to ear and talks into it as if it is a phone.
  - Pretends that puzzle pieces are cookies.
  - Pretends to put out fires on the playground with others, using pretend hoses and wearing firefighter hats.
  - Sits in a box with a peer, holding a “steering wheel,” and communicates, “My turn to drive the bus.”
  - Plays store, “scanning” items, placing them in bags, and collecting “money” from peers.
  - Sits in a box with a peer, holding a “steering wheel,” and communicates, “My turn to drive the bus.”
  - Plans with peers to pretend to be a family going on a trip: using chairs as seats for a car, negotiating roles, and deciding where they will go.
  - Assigns roles and acts out classroom routines (e.g., circle time, snack time) with other children.

- **Unable to rate this measure due to extended absence**

**Possible Examples**

- **Responding**
  - Child understands increasingly complex communication and language

- **Exploring**
  - Shows understanding of a variety of simple words

- **Building**
  - Shows understanding of a wide variety of phrases or sentences

- **Integrating**
  - Shows understanding of language that refers to abstract concepts, including imaginary events

- **Possible Examples**
  - Responds to voices, sounds, gestures, or facial expressions in basic ways
  - Responds to voices, sounds, gestures, or facial expressions in a variety of ways (e.g., gaze aversion, vocalization, movements)
  - Recognizes a few frequently used words or gestures in familiar situations
  - Shows understanding of frequently used simple phrases or sentences
  - Shows understanding of a wide variety of phrases or sentences
  - Shows understanding of some complex vocabulary, phrases, or sentences as used in conversations, stories, or learning activities
  - Shows understanding of language that refers to abstract concepts, including imaginary events

- **Responds to voices, sounds, gestures, or facial expressions in basic ways**
  - Turns head toward, or looks in the direction of, the voice of an adult.
  - Makes eye contact with a familiar adult.
  - Quiets or orients in the direction of a sound, touch, or gesture.

- **Responds to voices, sounds, gestures, or facial expressions in a variety of ways (e.g., gaze aversion, vocalization, movements)**
  - Smiles or gurgles in response to a familiar adult's voice or simple gestures.
  - Makes a sound similar to "Mmmmm" during a social interaction with a familiar adult.
  - Averts eyes to disengage from a social interaction with an adult.

- **Recognizes a few frequently used words or gestures in familiar situations**
  - Waves, "Bye-bye," after an adult communicates, "Good-bye."
  - Bounces or waves arms to indicate interest in continuing an activity after an adult pauses and asks, "More?"
  - Points to pictures of a bird, a tree, and a house, as an adult says the name of each, while looking at a book together.

- **Shows understanding of a variety of single words**
  - Indicates a bell in a storybook when adult asks about a bell.
  - Looks to the wagon after an adult refers to the wagon.
  - Points to pictures of a bird, a tree, and a house, as an adult says the name of each, while looking at a book together.

- **Shows understanding of frequently used simple phrases or sentences**
  - Gets jacket after an adult communicates, "Get your jacket. It's time to go outside."
  - Moves to the sink after an adult communicates, "Time to wash hands."
  - Hands crayons from the shelf after an adult asks, "Can you hand me the crayons that are on the shelf?"

- **Shows understanding of a wide variety of phrases or sentences**
  - Offers to help after an adult communicates, "Would you like to help me feed the turtle?"
  - Collects different types of art supplies after an adult explains an art project and where to find the supplies.
  - Hands crayons from the shelf after an adult asks, "Can you hand me the crayons that are on the shelf?"

- **Shows understanding of some complex vocabulary, phrases, or sentences as used in conversations, stories, or learning activities**
  - Adds blocks to a tower after a peer says, "Let's make our skyscraper the tallest!"
  - Holds the door open, after an adult asks the child to do so, until all of the other children have come into the room.
  - Points to the picture of an eagle and its nest while sharing a book about animals building their homes.

- **Shows understanding of language that refers to abstract concepts, including imaginary events**
  - Communicates, "I'm a princess and I live in a castle," while playing dress-up.
  - Pretends to be a character in a story after a read-aloud of the story.
  - Draws a picture about the changing seasons, after an adult talks about why the weather has changed.
  - Selects materials that float, while making a boat, after hearing an adult talk about materials that float or sink.

- **Shows understanding of a series of complex statements that explain how or why things happen**
  - Explains how to plant seeds to a peer after an adult reads a book about planting seeds.
  - Draws a picture about the changing seasons, after an adult talks about why the weather has changed.
  - Selects materials that float, while making a boat, after hearing an adult talk about materials that float or sink.
### Developmental Domain: LLD — Language and Literacy Development

**LLD 2: Responsiveness to Language**

#### Makes sounds spontaneously
- Smiles when a familiar person approaches.
- Cries or looks at an adult when hungry.
- Vocalizes or babbles while interacting with an adult.

#### Possible Examples
- Cries.
- Coos.
- Gurgles.

- Uses sounds, gestures, or facial expressions to communicate
- Uses a few “first words,” word-like sounds, or gestures to communicate
- Uses a variety of single words to communicate
- Uses two words together to communicate
- Uses short phrases or sentences of more than two words to communicate
- Uses short sentences that contain nouns, verbs, and other words, such as adjectives and recently encountered vocabulary, to communicate
- Uses phrases and sentences with a variety of word forms, including past tense, future tense, plurals, pronouns, or possessives, to communicate, sometimes with errors
- Combines phrases and sentences with a variety of word forms to communicate ideas or to describe people, objects, or events

- Asks for food when hungry, by using a special word, sound, or gesture for food.
- Communicates, “Mama,” “Dada,” “Baba,” or similar word approximations.
- Reaches for or gestures for an object.
- Names familiar foods, toys, or family members.
- Communicates ideas such as “No,” “More,” or “Up.”
- Indicates a picture of a ball when asked what the child wants to play with next.
- Communicates, “Mommy come,” when wanting a parent.
- Communicates, “More juice,” when thirsty.
- Communicates, “My truck!” in Chinese] after another child takes a toy truck.
- Communicates, “A mi toca,” [“It’s my turn,” in Spanish] when an adult brings the pet rabbit for a visit.
- Communicates, “I want mommy.”
- Communicates, “I like dogs,” while looking at an animal book.
- Communicates, “The rabbit is scared,” when the pet rabbit snuggles into an adult’s lap. ("Scared" is an adjective.)
- Communicates using a communication board, “I need a tissue. My nose is runny.” ("Tissue" is a noun and "runny" is an adjective.)
- Communicates, “Malaking malaki ang aso namin,” [“Our dog is huge,” in Tagalog] after hearing a peer use the word “huge.” ("Huge" is a recently encountered vocabulary word.)
- Communicates to a peer, during play, "Yesterday we made vegetable soup." ("We" is a pronoun; "made" is past tense.)
- Communicates, “His birthday is tomorrow. He will be five.” ("His" is a possessive pronoun; "he" is a pronoun; "will be" is future tense.)
- Communicates in sign language that the cat’s feet are wet. ("Cat’s" is possessive; "feet" is plural.)
- Communicates, “He runned really fast.” ("Ran" is past tense with a grammatical error.)
- Communicates to a peer, “Let’s hurry and clean up so we can go outside to ride bikes.”
- Communicates via spoken words, signs, or a communication device, “The dog ate the cat’s food, and then he got in trouble. We put him outside and he was very sad.”
- Communicates, “Mi abuela es muy vieja. Tiene el cabello blanco y muchas arrugas.” [“My grandma is really old. She has white hair and lots of wrinkles,” in Spanish].

- **Child is emerging to the next developmental level**
- **Unable to rate this measure due to extended absence**

Responds to sounds or movements of others in basic ways
- Responds to or seeks contact with familiar adults, using vocalizations, gestures, or facial expressions during interactions

**Possible Examples**
- Smiles at an approaching familiar adult.
- Makes sounds when a familiar adult stops talking.
- Reaches toward a familiar adult.
- Looks at a familiar adult during feeding.
- Expresses, “Ba,” in response to an adult talking about a ball, and then waits for the adult to respond.
- Covers eyes to signal an adult to continue playing peek-a-boo.
- Communicates, “Yes,” or “No,” after an adult asks, “Do you want more milk?”
- Rubs eyes and responds, “Night-night,” after a familiar adult asks, “Are you tired?”
- Brings a ball to an adult, and then responds, “Ball,” after the adult asks, “Do you want me to play ball with you?”
- Makes eye contact with an adult while holding a stuffed bear. When the adult asks, “Whose teddy bear is that?” communications, “My bear.”
- Communicates, “That’s a monkey,” while reading a story with an adult. When the adult says, “Yes, he’s climbing,” replies, “Climbing up high.”
- Hands play dough to a peer. When the peer takes the play dough and says, “I’m gonna make a dog,” responses, “I’m making a snake.”
- Asks a peer for some blocks to put in child’s truck while playing with trucks. When the peer replies, “Here,” and hands over several blocks, responds, “That’s too many,” and takes only two blocks from the peer.
- Communicates, “That’s my family,” while looking at a photo with a peer. When the peer says, “You have two sisters,” responds, “I have a big sister, and that’s my baby sister.”
- Responds to an adult’s comments about animals that live in the zoo. “I went to the zoo,” in Spanish. When an adult replies, “There are lots of animals in the zoo,” child says, “Los camais son los animales que más me gustan,” (“I like the ligators best,” in Spanish) and continues to converse about other animals at the zoo.
- Has a brief conversation with a peer while looking at a caterpillar together. Comments, “That is really hairy.” When peer responds, “Yeah, really hairy.” child continues, “He has lots of legs, too.”
- Has a conversation with a peer about things that they like to do together with their families. Says, “My family goes to the park on Sundays.” When peer asks, “Every Sunday?” child responds, “Yeah, but sometimes we go to the park with the swimming pool sometimes the park with the big playground.” Then when peer asks, “My grandma takes me to the park,” child responds, “My grandma takes me to the store.” Conversation continues.
- Has a conversation with an adult about the size of dinosaurs. When the adult says that dinosaurs were all different sizes, child responds by naming a big dinosaur, then naming a small dinosaur. Then when the adult says that some dinosaurs had horns, child continues the conversation by saying that some dinosaurs flew like birds.
- Has a conversation with a peer before and while building a fort, including offering ideas on what materials they need and suggesting ways to make sure that the walls keep standing as they are building it.
- Has a conversation with an adult about how dinosaurs lived and how people live, providing suggestions about what it would be like if dinosaurs and people lived in the same place.

* Conversations can include communication using sign language or alternative communication systems.

☐ Child is emerging to the next developmental level
☐ Unable to rate this measure due to extended absence

### Possible Examples

- Look at a picture book with an adult.
- Brings a favorite book about baby animals to an adult, to be reread often.
- Points to photos, with captions, that were taken while on a nature walk.
- Turns the page after an adult stops reading a book.
- Touches Braille and image of sheep with textured wool in a book and says, “Sheep.”
- Communicates, “Pasta,” after an adult points out items on a children’s menu.
- Communicates, “Elephants have really big ears,” after an adult reads about elephants.
- Asks, “Why did they go there?” during the reading of a story.
- Points to a lighted exit sign and asks, “What does that say?”
- Reenacts a story about firefighters with peers, using props for hoses, boots, and hats.
- Pretends to direct traffic on the bike path after listening to a book about what community helpers do.
- Uses a shawl to carry a doll after a read-aloud of the storybook What Can You Do with a Rebozo? (“Shawl” in Spanish).
- Communicates that the caterpillar will have a stomachache, after rereading The Very Hungry Caterpillar.
- Predicts that the firefighters will come quickly to put out the fire, after an adult pauses while reading a book about firefighters to ask, “What will happen next?”
- Draws a caterpillar, a cocoon, and a butterfly after an adult reads a story about the life of a butterfly.
- Pretends to be Max, refuses to eat dinner, and then pretends to turn into a monster and become the king of the monsters, after hearing the book Where the Wild Things Are.
- Comments, “The man got mad because the monkeys took his hat,” during a read-aloud of the story Caps for Sale.
- Communicates, using a communication board, “Firefighters have to wear special clothes so that they don’t get burned,” after an adult reads a book about what firefighters do.
- Holds up two books about bears and communicates, “Ang dalawang aklat na ito ay tungkol sa mga usong sa Goldilocks ay mas maganda,” (“These two books are about bears, but the bears in Goldilocks are nicer,” in Tagalog).
- Relates what happens in a familiar storybook to a peer as they begin to share the book together.
- Brings a book from home and communicates to the class about what happens in the story and why.

### Mark the latest developmental level the child has mastered:

- **Child is not yet at the earliest developmental level on this measure**
- **Child is emerging to the next developmental level**
- **Unable to rate this measure due to extended absence**
### Developmental Domain: LLD — Language and Literacy Development

#### LLD 7: Concepts About Print

Child shows an increasing understanding of the conventions and physical organization of print material and that print carries meaning*

<table>
<thead>
<tr>
<th>Responding</th>
<th>Exploring</th>
<th>Building</th>
<th>Integrating</th>
</tr>
</thead>
<tbody>
<tr>
<td>Earlier</td>
<td>Middle</td>
<td>Earlier</td>
<td>Earlier</td>
</tr>
<tr>
<td>Later</td>
<td>Middle</td>
<td>Later</td>
<td>Earlier</td>
</tr>
<tr>
<td></td>
<td>Early</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Possible Examples**

- Explores books
- Engages with print materials while being read to by an adult
- Demonstrates awareness of the way books are handled
- Demonstrates understanding that print and symbols carry meaning
- Demonstrates understanding of how to follow print on a page of text
- Demonstrates understanding that print is organized into units, such as letters, sounds, and words

* Children who are familiar with print in languages other than English may demonstrate differences in how they approach print materials. Some languages (e.g., English, Spanish, Tagalog, Vietnamese) are written from left to right within a horizontal line of print and from top to bottom in books and other print media. Other languages (e.g., Arabic, Hebrew) are written from right to left within a horizontal line of print and from top to bottom in books and other print media.

- ○ Child is not yet at the earliest developmental level on this measure
- ○ Child is emerging to the next developmental level
- ○ Unable to rate this measure due to extended absence
## LLD 8: Phonological Awareness

Child shows increasing awareness of the sounds (elements) that make up language, including the ability to manipulate them in language.

### Mark the latest developmental level the child has mastered:

<table>
<thead>
<tr>
<th>Responding</th>
<th>Exploring</th>
<th>Building</th>
<th>Integrating</th>
</tr>
</thead>
<tbody>
<tr>
<td>Earlier</td>
<td>Middle</td>
<td>Later</td>
<td></td>
</tr>
<tr>
<td></td>

<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### Possible Examples

- **There are no earlier levels for this measure**
- **Attends to sounds or elements of language**
- **Demonstrates awareness of variations in sounds**
- **Engages actively in play with sounds in words or rhymes, or Sings simple songs, or Repeats simple nursery rhymes**
- **Demonstrates awareness of larger units of language (e.g., words, syllables)**
- **Blends larger units of language (e.g., compound words and syllables) with or without the support of pictures or objects; and Segments larger units of language (e.g., compound words and syllables) with or without the support of pictures or objects**
- **Blends smaller units of language (e.g., onsets and rimes), with or without the support of pictures or objects; and Segments smaller units of language (e.g., onsets and rimes), with or without the support of pictures or objects**

#### Marking Levels

- ○ Child is not yet at the earliest developmental level on this measure
- ○ Child is emerging to the next developmental level
- ○ Unable to rate this measure due to extended absence

---

*Children who are deaf and learning American Sign Language will attend to elements of language (hand shapes and movements) in the early levels of learning, but eventually will be able to use finger spelling in relation to learning about sounds. For a child who is hard of hearing, has a cochlear implant, or is using cued speech, the sequence may or may not be similar to that of a hearing child.*

---

**LLD 8: Phonological Awareness**

---

- Turns toward adult when adult sings a song.
- Looks at adult’s hands when adult signs “more.”
- Attends to adult saying, “bye-bye.”
- Whispers a word, and then says it loudly.
- Communicates, “No, no, no, no,” varying pitch.
- Uses sounds or hand movements to play with variations of stress and rhythm.
- Rhymes children’s names with other words during a group sing-along.
- Sings “Twinkle, Twinkle, Little Star” with a group.
- Communicates the rhyming word “fall,” after an adult says, “Humpty Dumpty sat on a wall. Humpty Dumpty had a great . . . ?”
- Uses signs to participate in a song such as “The Wheels on the Bus.”
- Drums out each word in “I am Matt” in a name game in the classroom, after an adult has modeled drumming while saying single words.
- Claps the syllables in familiar words, such as children’s names or days of the week, with adult and peers.
- Moves arms each time the word “row” is said in the song “Row, Row, Row Your Boat,” with adult and peers.
- Answers, “Goldfish,” after an adult asks, “If you put together the words ‘gold’ and ‘fish,’ what word does that make?”
- Communicates, “Rain,” after an adult communicates, “There are two words in ‘raincoat.’ What happens when we take away the word ‘coat’?” while moving a picture of a coat away from a picture of rain.
- Communicates, “Zebra,” after an adult separates the word into syllables, and says, “Ze–, and ‘–bra,’ while looking at a wordless picture book about the zoo.
- Communicates, “Marker,” after an adult communicates, “What happens when I put the two syllables ‘mark’– and ‘–er’ together?”
- Communicates, “Cup,” at the snack table, after an adult says, “I have a c–up. What do I have?”
- Communicates, “Lee,” after an adult asks what word is left when the m– is removed from the word “mice,” while playing a word game.
- Communicates, “d” (letter sound), while looking at a picture of a dog, after an adult says, “What is the first sound you hear when you say ‘dog’?” while looking at pictures of dogs together.

---

- Communicates, “Cup,” at the snack table, after an adult says, “I have a c–up. What do I have?”
- Communicates, “Lee,” after an adult asks what word is left when the m– is removed from the word “mice,” while playing a word game.
- Communicates, “d” (letter sound), while looking at a picture of a dog, after an adult says, “What is the first sound you hear when you say ‘dog’?” while looking at pictures of dogs together.
### Developmental Domain: LLD — Language and Literacy Development

**LLD 9: Letter and Word Knowledge**

Child shows increasing awareness of letters in the environment and their relationship to sound, including understanding that letters make up words

</tr>
</tbody>
</table>

#### Possible Examples

- **Points to a picture of a bird in a book when adult communicates, “Bird.”**
- **Goes and gets teddy bear after seeing a picture of a bear.**
- **Sees a photo of mother and communicates, “Mama.”**

- **Recognizes that a stop sign means “stop.”**
- **Places paper in a recycling bin after noticing the recycling symbol (three arrows forming a circle) on the bin.**
- **Notices a familiar store or business in the neighborhood from its logo.**
- **Asks an adult what signs in Braille say.**

- **Holds up hand or communicates, “Me,” when an adult holds up a sign with child’s name.**
- **Finds the first letter of own name in the environment, such as on labels, artwork, cubbies, or chairs.**
- **Communicates, “I found the same letter,” when playing a letter matching game in print or Braille.**

- **Names some letters while looking at an alphabet book.**
- **Points and names some letters in an alphabet puzzle.**
- **Names at least ten letters while placing them on a magnet board.**
- **Copies the word “cat” and communicates that it says “cat” (letters may not be written accurately).**
- **Says, “Fish,” after reading the word in Braille.**

- **Communicates, “Hay dos letras A en mi nombre, una A grande y una a pequeña,” [“I have two As in my name, one big A and one little a,” in Spanish] when reading own name, Anna, on cubby.**
- **Names, by sight or touch, most of the letters of the alphabet, when reading an alphabet book.**
- **Communicates, “Ball starts with B,” after hearing the word “ball” in a story.**
- **Looks at the word “mat” in large print and says “m” (letter sound).**

---

- ○ Child is not yet at the earliest developmental level on this measure
- ○ Child is emerging to the next developmental level
- ○ Unable to rate this measure due to extended absence

---

---

---
**Developmental Domain: LLD — Language and Literacy Development**

### LLD 10: Emergent Writing
Child shows increasing ability to write using scribbles, marks, drawings, letters, characters, or words to represent meaning*

#### Mark the latest developmental level the child has mastered:

<table>
<thead>
<tr>
<th>Responding</th>
<th>Exploring</th>
<th>Building</th>
<th>Integrating</th>
</tr>
</thead>
<tbody>
<tr>
<td>Earlier</td>
<td>Middle</td>
<td>Later</td>
<td>Earlier</td>
</tr>
<tr>
<td>Later</td>
<td>Middle</td>
<td>Later</td>
<td>Earlier</td>
</tr>
</tbody>
</table>

**Possible Examples**

- **Responding**
  - There are no earlier levels for this measure

- **Exploring**
  - Makes marks on paper
  - Makes scribble marks
  - Makes scribble marks or simple drawings that represent people, things, or events
  - Makes marks to represent own name or words

- **Building**
  - Uses letters or clearly recognizable approximations of letters to write own name

- **Integrating**
  - Writes several words or a few simple phrases, or clearly recognizable approximations

- **Owning**
  - Dips sponge in paint and dots onto paper.
  - Makes a dot on a paper and then makes more dots using different markers.
  - Holds crayon against paper.

- **Possible Examples**
  - Uses crayons, pencils, or markers to make back-and-forth marks.
  - Paints using large or small movements.
  - Scribbles by moving finger on screen of tablet or by using Braille writer.

- **Possible Examples**
  - Draws circles and lines and comments, “Baby,” and “Mommy.”
  - Makes marks on paper and then explains that it is a birthday cake.
  - Draws a series of lines to represent a house and a tree.

- **Possible Examples**
  - Uses an adaptive device to hold a marker to make marks on paper to represent the word “mom.”
  - Writes own name on drawings made in class.
  - Signs a self-made card to grandma with a close approximation of own name.

- **Possible Examples**
  - Writes, “dog” ["dog"], copying the word from a book, to label a drawing of a dog.
  - Writes “STOP” on a stop sign in a drawing.
  - Writes “I love you” on a drawing made for a family member.
  - Uses a Braille writer to practice writing a few simple words.

* Children who are familiar with print in languages other than English may demonstrate differences in how they approach writing. For instance, some languages use letters (e.g., English, Spanish, Tagalog, Arabic, Hebrew), while others use characters (e.g., Chinese).

- ○ Child is not yet at the earliest developmental level on this measure
- ○ Child is emerging to the next developmental level
- ○ Unable to rate this measure due to extended absence
**ELD 1: Comprehension of English (Receptive English)**

Child shows increasing progress toward fluency in understanding English.

**Developmental Domain: ELD — English-Language Development**

<table>
<thead>
<tr>
<th>Discovering Language</th>
<th>Discovering English</th>
<th>Exploring English</th>
<th>Developing English</th>
<th>Building English</th>
<th>Integrating English</th>

</thead>
<tbody>
<tr>
<td>Recognizes a few frequently used words or gestures in the home language and culture in familiar situations</td>
<td>Shows understanding of words and phrases in conversations, stories, and interactions in home language (may show little understanding of common words and phrases in English)</td>
<td>Attends to interactions in English and sometimes participates in activities conducted in English; and Shows understanding of a few common English words in familiar contexts or routines</td>
<td>Shows understanding of some common words and phrases in English during interactions and activities conducted in English, occasionally with support of home language, nonverbal cues, or both</td>
<td>Shows understanding of many words, phrases, and concepts in English during interactions and activities conducted in English, occasionally with support of home language, nonverbal cues, or both</td>
<td>Shows understanding of most information and concepts communicated in English for both instructional and social purposes</td>
</tr>
</tbody>
</table>

**Possible Examples**

- Waves good-bye after an adult communicates, “Good-bye,” in the child’s home language and culture.
- Indicates interest in continuing an activity after an adult pauses and asks to continue in the child’s home language and culture.
- Orient toward a familiar person or thing when it is named in the home language.
- Adds a block to the top of a tower in response to a question in the child’s home language, “Can you make it taller?”
- Passes a book to another child when requested in the child’s home language, having not responded to the same request in English.
- Seeks out and plays with peers who speak the child’s home language, while in the dramatic play area.
- Pauses to listen to peers speaking English for a short period of time while playing in the sandbox.
- Nods head when an adult at the snack table asks in English, “Do you want more apples?” while holding up a plate of apple slices.
- Begins to put blocks on a shelf when a peer says in English, “Clean-up time.”
- Points to the ball when a peer says in English, “Where is the ball?” during outdoor play time.
- Goes to get markers after an adult asks in English if child would like to use paint or markers to make a birthday card for a peer.
- Approaches the door to go inside when an adult says in English, “It is time to go in for a snack,” and adds, “¡Hora de comer!” (“Time to eat!” in Spanish).
- Adds more blocks to a road when a peer communicates in English, “We need a longer road.”
- Pretends to talk on the phone when a peer says in English, “Baby’s sick. Call the doctor.”
- Puts drawing on the counter after an adult points to the counter and requests in English, “Please put your drawing on the counter. It’s wet and it needs to dry.”
- Sorts orange and green squash after an adult says in English, “Let’s separate them by color.”
- Brings a bigger block to a peer in response to a question in English by the peer, “Could you bring me the bigger block?”
- Nods head excitedly when a peer asks in English if child wants to ride bikes together outside.

Mark the latest developmental level the child has mastered:

</tbody>
</table>

**Possible Examples**

- Asks for food when hungry, by using a special word, sound, or gesture for food.
- Communicates from child’s home language, “Mama,” “Dada,” or other word approximations.
- Reaches for or gestures for an object.
- Takes an adult’s arm and leads the adult to the drawing area, where several children are drawing, and reaches or gestures toward the paper container.
- Nods, “Yes,” and responds in home language in response to a routine question such as, “Do you want more milk?” while an adult holds up a pitcher of milk.
- Communicates, “¿Puedo pintar contigo?” (“Can I paint with you?” in Spanish) while approaching a peer who is painting.
- Communicates, “这是它们的家。” (“This is their home,” in Chinese) while putting some toy animals under a blanket in the dramatic play area.
- Communicates in English, “Bye,” to a peer when leaving at the end of the day.
- Greets peers in home language and joins in singing the words “good morning” in English during the daily morning song.
- Chimes in with, “The end!” in English when an adult finishes reading a story to a small group of children.
- Communicates in English, “Marker,” to ask for a marker from a peer while playing restaurant in the dramatic play area.
- Communicates in English, “I do a house,” (“I made a house,”) while painting.
- Communicates to a peer in English, “My turn,” and gestures at the slide during outdoor play.
- Communicates, “The dog 变成一个lady 了,” (“The dog turned into a lady,” in English and Chinese) while helping to put a dress on a stuffed dog in the dramatic play area.
- Communicates to a peer while playing with play dough, “I make galletitas [“cookies” in Spanish] and pan [“bread” in Spanish]. You like it?” (“I made cookies and bread. Do you like it?”)
- Communicates to a peer in English, “Come! I show you!” (“Come! I will show you!”) and brings the peer to child’s cubby, where child takes a stuffed animal out of a bag.
- Communicates in English, “The lamb licked my hand!” (“The lamb licked my hand!”) when describing a family trip to a petting farm that occurred last weekend.
- Communicates to a peer, “My dad rides a ngôa,” (“My dad rides a” in Vietnamese) while attempting to draw a horse.
- Communicates in English, “This is happy new year. This is mommy and me. We saw the dragon,” in response to an adult asking, “Tell me about your picture.”
- Communicates to a peer, “I ate huevos [“little eggs” in Spanish]. The huevos were really yummy! My papi [“daddy” in Spanish] and me, we get them at la tiendita [“the little store” in Spanish].”
- Communicates in English, “I’m going to cook them now,” while throwing some noodles made with play dough into a toy pot, and later puts “cooked noodles” on a plate and communicates, “Here’s a plate for you,” while handing it to a peer.

**Conditional Measure**

- Measure not rated: English is the only language spoken in this child’s home.

<td>Attends briefly to a familiar adult looking at books, singing songs, or saying rhymes in home language</td>
<td>Participates in literacy activities in home language; and Attends to simple literacy activities in English with some support</td>
<td>Uses home language, gestures, or single words in English to show understanding of literacy activities in English</td>
<td>Uses frequently used words and short phrases in English to communicate understanding about a book, story, song, or poem told, read, or sung in English (often uses actions; may mix English with home language)</td>
<td>Uses a variety of words and phrases in English to communicate understanding about key ideas of a book, story, song, or poem told, read, or sung in English (sometimes uses actions; may mix English with home language)</td>
<td>Uses elaborated English phrases with a variety of vocabulary and grammatical structures to communicate understanding of the content of a book, story, song, or poem (may mix English with home language)</td>
</tr>
</tbody>
</table>

Possible Examples

- Looks at pictures in a book for a short time while a familiar adult reads in the home language.
- Reaches to turn the page of a board book as a familiar adult talks or signs in the home language about the pictures on the page.
- Uses simple hand movements to participate during a familiar song or rhyme in the home language.
- Joins in with peers who are singing a song or chanting in child's home language.
- Looks at pages of a picture book with a peer while an adult reads the book aloud in English.
- Attends to the retelling of a story in English on the flannel board, after the story has been read in child's home language.
- Makes faces, gestures, or sounds like a tiger when an adult reads an illustrated poem in English about tigers.
- Gestures at a picture of a baby bear and says, "Baby," while an adult is reading a book about animals in English to a small group of children.
- Attends to the retelling of a story in home language on the flannel board, after a story has been read in child's home language.
- Comments in home language about a picture in a book, after hearing other children making comments.
- Repeats the first line of "Five Little Monkeys Jumping on the Bed," with accompanying hand motions.
- Draws a picture and communicates, "This is spider. This is fly," after listening to the book *The Very Busy Spider*.
- Communicates to a peer, "Look! Look! Look! [Una oruga] ["a caterpillar" in Spanish]! Like the book!" while playing outside, after *The Very Hungry Caterpillar* was read aloud in English.
- Brings the book *Rosie's Walk* to a peer and communicates, "Chicken take a walk. Fox want eat her. Oh, no!"
- Communicates, "Baby bear mad! The girl, she eat it all. Lahat itol!" ["The baby bear is mad! The girl, she ate it all," in English; "All of it!" in Tagalog] during a teacher-guided discussion in English about *The Three Little Bears*, which has been read aloud and retold on several occasions with props.
- Communicates most of the words of "Five Little Monkeys Jumping on the Bed" and uses flannel-board pieces to show each of the monkeys falling off the bed and bumping his head.
- Communicates to a peer, "Sharks have sharp teeth to bite, and they swim fast," while paging through a book about the ocean.
- Communicates, "My mommy kiss me before I come to school. She say, 'I love you, hijito.' Then she goes to work," while reading *The Kissing Hand* with an adult. ["Hijito" is a term of endearment that is often used with young children in some South American countries.]
- Communicates, "She sat in Papa Bear's chair. It was enorme ["enormous" in Spanish]. She sat in Baby Bear's chair. It was teeny and she broke it! She was really scared," while playing with flannel-board characters in *The Three Little Bears*.  

○ Child is emerging to the next developmental level  
○ Unable to rate this measure due to extended absence
### ELD 4: Symbol, Letter, and Print Knowledge in English

Child shows an increasing understanding that print in English carries meaning

#### Mark the latest developmental level the child has mastered:

<table>
<thead>
<tr>
<th>Discovering Language</th>
<th>Discovering English</th>
<th>Exploring English</th>
<th>Developing English</th>
<th>Building English</th>

<td><strong>Demonstrates awareness that print in English carries meaning</strong></td>
<td><strong>Demonstrates understanding that English print consists of distinct letters with names in English</strong></td>
<td><strong>Identifies several English letters; and Recognizes own name in English print</strong></td>
<td><strong>Identifies at least ten English letters; and Identifies a few printed words frequently used in English</strong></td>
</tr>
</tbody>
</table>

**Possible Examples**

- Points to a picture of a bird in a book after seeing or hearing a bird outside.
- Goes and gets teddy bear after seeing a picture of a bear.
- Sees a photo of mother and communicates in home language, “Mama.”
- Explores a toy teacup and tries to take a drink.
- Points to a caption written in English under a picture and asks an adult, in home language, “What letter is this?” while pointing to the first letter of own name on cubby label.
- Communicates in English, “I have a T, and you have a T. I have an A, but you don’t.” while gesturing at own name and a peer’s name.
- Names all the letters in own name correctly one by one, and then gestures at a Spanish-speaking peer.
- Names four English letters correctly while playing with magnetic letters with a peer.
- Communicates, “I have a T, and you have a T. I have an A, but you don’t,” “I have an A, but you don’t.” while gesturing at own name and a peer’s name.
- Communicates, “I have a T, and you have a T. I have an A, but you don’t,” “I have an A, but you don’t.” while gesturing at own name and a peer’s name.
- Identifies words posted in the writing center, such as “Mom,” “Dad,” and “love,” after a small group activity about writing letters to family members.
- Identifies labels such as “blocks,” “door,” “books,” or “art” while showing own grandma around the room.
- Communicates to a peer, “Mira, este dice ‘s–t–o–p’ [‘Look, this says’ in Spanish]” while pointing to a stop sign.
- Communicates to a peer, “Mira, este dice ‘s–t–o–p’ [‘Look, this says’ in Spanish]” while pointing to a stop sign.

<tr>
<td>Later</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Earlier</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Later</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- **Possible Examples**

  - Demonstrates awareness that objects differ by properties (e.g., size, length, weight, or capacity)
  - Explores how objects differ by properties (e.g., size, length, weight, capacity) or uses words (e.g., “big,” “heavy”) to describe some measurable properties
  - Identifies differences in size, length, weight, or capacity between two objects, using comparative words (e.g., “bigger,” “smaller”) or showing understanding of comparative words
  - Orders three or more objects by directly comparing them using a measurable property (e.g., size, length, weight, capacity)
  - Explores the properties of objects (e.g., size, length, weight, capacity) through either the use of measurement tools with standard units (e.g., ruler, scale) or the use of nonstandard units (e.g., footsteps, blocks)

- **Possible Examples**

  - Gestures by holding one hand high in the air to indicate that an adult is tall.
  - Positions arms and legs far apart to “catch” a big ball while sitting on the floor.
  - Finds the big doll when asked to do so.
  - Grunts before picking up an object that might be heavy.
  - Makes repeated attempts to put different-sized trucks into a small tunnel.
  - Carries an empty purse with one hand, fills the purse with blocks, and then uses both hands to pick up the purse.
  - Pours water or sand back and forth between containers of different sizes.
  - Gestures to indicate how big the family dog is, when asked.
  - Communicates, “This pumpkin is so heavy.”
  - Communicates, “My braid goes down my back. It’s long.”
  - Communicates, “Este es más largo,” “[This one is longer,” in Spanish] when placing train tracks side by side to check which is longer.
  - Chooses the bigger of two buckets when asked to bring the one that will hold more water.
  - Communicates, “Mine is taller,” when building a block tower next to a peer’s block tower.
  - Arranges several leaves by size while outside on the playground.
  - Lines up several stuffed animals from smallest to largest, during pretend play.
  - Arranges five shapes on an electronic tablet from small to large by touching and dragging.
  - Puts four different objects on a balance scale, then lines them up from lightest to heaviest.
  - Fills a measuring cup twice to add two cups of oatmeal during a cooking activity.
  - Uses a balance scale to find out which of two fruits is heavier.
  - Uses footsteps to measure the length of a rug and communicates, “This rug is 10 steps long!”

- **Possible Examples**

  - Child is not yet at the earliest developmental level on this measure
  - Child is emerging to the next developmental level
  - Unable to rate this measure due to extended absence
Developmental Domain: COG — Cognition, Including Math and Science

**COG 6: Patterning**
Child shows an increasing ability to recognize, reproduce, and create patterns of varying complexity

Mark the latest developmental level the child has mastered:

<table>
<thead>
<tr>
<th>Responding</th>
<th>Exploring</th>
<th>Building</th>
<th>Integrating</th>
</tr>
</thead>
<tbody>
<tr>
<td>Earlier</td>
<td>Later</td>
<td>Earlier</td>
<td>Later</td>

<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Possible Examples

- Watches intently and waves hands while adult sings “Open, shut them” song.
- Watches another child hit drum twice, followed by adult hitting the drum twice.

- Notices and responds to simple repeating sequences
- Participates in some parts of simple repeating sequences in language, movement, music, everyday routines, or interactions
- Matches simple sequences that are seen, heard, or experienced
- Attempts to create simple repeating patterns (with two elements)
- Extends a simple repeating pattern (with two elements) by adding one or more repetitions of an existing pattern
- Creates, copies, or extends complex patterns (with three or more elements)

- Some examples include:
  - Watches intently and waves hands while adult sings “Open, shut them” song.
  - Watches another child hit drum twice, followed by adult hitting the drum twice.

- Some examples include:
  - Notices and responds to simple repeating sequences
  - Participates in some parts of simple repeating sequences in language, movement, music, everyday routines, or interactions
  - Matches simple sequences that are seen, heard, or experienced
  - Attempts to create simple repeating patterns (with two elements)
  - Extends a simple repeating pattern (with two elements) by adding one or more repetitions of an existing pattern
  - Creates, copies, or extends complex patterns (with three or more elements)

- Possible Examples

  - Watches intently and waves hands while adult sings “Open, shut them” song.
  - Watches another child hit drum twice, followed by adult hitting the drum twice.

  - Some examples include:
    - Watches intently and waves hands while adult sings “Open, shut them” song.
    - Watches another child hit drum twice, followed by adult hitting the drum twice.
## Developmental Domain: COG — Cognition, Including Math and Science

### COG 7: Shapes
Child shows an increasing knowledge of shapes and their characteristics

**Mark the latest developmental level the child has mastered:**

<table>
<thead>
<tr>
<th>Responding</th>
<th>Exploring</th>
<th>Building</th>
<th>Integrating</th>
</tr>
</thead>
<tbody>
<tr>
<td>Earlier</td>

<tr>
<td>There are no earlier levels for this measure</td>
<td>Explores shapes of objects</td>
<td>Manipulates objects based on shape</td>
<td>Identifies or names several shapes in the environment (e.g., circles, squares, triangles)</td>
</tr>
</tbody>
</table>

**Possible Examples**

- Feels along the edges of a triangle.
- Puts one or two rings on a ring stack.
- Takes out a puzzle piece with a knob and tries to fit it back into a hole of the puzzle, before setting it back down on the table.
- Moves along a line of a circle painted on the pavement in an outdoor play area.
- Puts a square-shaped puzzle piece into the correct hole of a form board.
- Tries a variety of solutions to fit lids on boxes and other containers.
- Puts a circle piece into the correct hole of a shape sorter.
- Places different-shaped blocks on shelves labeled with matching shapes.
- Uses ink stamps to make a row of circles and a row of squares.
- Chooses blocks of the same shape to build a tower with a peer.
- Points to a clock in the room when asked to find a circle during an “I Spy a Shape” game.
- Communicates, “Ahora haré el triángulo,” (“Next, I’ll do the triangle,” in Spanish) after placing a square in a puzzle.
- Communicates, “My sandwich is a square,” while holding up a sandwich at lunch.
- Names “square,” “circle,” and “triangle” after exploring each shape piece with hands.
- Finds embedded shapes in a picture book, such as Bear in a Square.
- Communicates that the face in a figure drawing is a circle.
- Communicates, “It’s an upside-down triangle,” after noticing a yield sign.
- Communicates, “This one has a pointy part. This one is curvy,” when examining a triangle and a circle.
- Communicates that a triangle has three sides and a square has four sides.
- Communicates that two sides of a rectangle are longer, but the sides of a square are all the same.

- Communicates that a triangle has three sides and a square has four sides.
- Communicates that two sides of a rectangle are longer, but the sides of a square are all the same.

---

- ○ Child is not yet at the earliest developmental level on this measure
- ○ Child is emerging to the next developmental level
- ○ Unable to rate this measure due to extended absence
**Developmental Domain: PD-HLTH — Physical Development–Health**

### PD-HLTH 1: Perceptual-Motor Skills and Movement Concepts

Child moves body and interacts with the environment, demonstrating increasing awareness of own physical effort, body awareness, spatial awareness, and directional awareness

<table>
<thead>
<tr>
<th>Mark the latest developmental level the child has mastered:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Responding</td>
</tr>
<tr>
<td>Earlier ☐</td>
</tr>
<tr>
<td>Later ☐</td>
</tr>
<tr>
<td>Possible Examples</td>
</tr>
<tr>
<td>Responds to sensory information by moving or limbs to reach for or move toward people or objects</td>
</tr>
<tr>
<td>Tries different ways to coordinate movements of large or small body parts</td>
</tr>
</tbody>
</table>

- **Responding**
  - Moves toward a familiar adult while being picked up.
  - Bats or kicks at a hanging mobile.
  - Turns toward, then grasps, a rattle being shaken.
  - Gazes at, then reaches toward, glasses on someone’s face.
  - Shifts body to stabilize it, in order to reach up toward an adult’s face while sitting on the adult’s lap.
  - Repositions body in order to manipulate levers and buttons on a busy box.
  - Dabs fingers in water before placing whole hand in.
  - Pats play dough with whole hand, then leans forward to roll it.
  - Participates in songs or games requiring movement of specific body parts.
  - Moves arm up and down, with increasing momentum, to shake bells louder.
  - Uses arms to push against a container of wooden blocks that does not move, then leans body forward to push harder.
  - Changes movements when dancing with scarves.
  - Starts and stops movements of different body parts during a freeze-dance game.
  - Moves over, under, around, and through large objects in an obstacle course, sometimes bumping them.
  - Avoids bumping into orange cones on a path for wheel toys by moving around them, after an adult points to the cones.
  - Raises knees high when following an adult marching.
  - Moves away from a nearby child after an adult communicates, “Make sure you have enough room to stretch without bumping your neighbor.”
  - Changes pathway of movement from straight to curved or zigzag when following another child during a game of follow the leader.
  - Pedals a wheel toy harder to go faster when catching up to another child on a wheel toy.
  - Uses feet to slow self when coming down a ramp.
  - Reaches for a small pitcher of milk without bumping into other objects on the table during lunch.
  - Moves other wheel toys closer together to make room for a new wheel toy when putting it away during outdoor play.
  - Tries several different ways to move through sections of a new obstacle course.
  - Walks carefully after slipping on wet leaves or grass during a nature walk.

- **Integrating**
  - Child is emerging to the next developmental level
  - Unable to rate this measure due to extended absence

**PD-HLTH 1**

**Perceptual-Motor Skills and Movement Concepts**
### Developmental Domain: PD-HLTH — Physical Development–Health

**PD-HLTH 2: Gross Locomotor Movement Skills**

Child shows increasing proficiency in fundamental locomotor skills (e.g., rolling, crawling, cruising, walking, running, jumping, galloping)

#### Mark the latest developmental level the child has mastered:

<table>
<thead>
<tr>
<th>Responding</th>
<th>Exploring</th>
<th>Building</th>

<td>Later</td>
<td>Earlier</td>
<td>Middle</td>
</tr>
<tr>
<td>Moves in basic and often involuntary ways</td>
<td>Moves two or more body parts together, often with intention</td>
<td>Coordinates movements of body parts to move whole body, such as creeping, crawling, or scooting on bottom</td>
<td>Coordinates movement of whole body while upright, using support</td>
</tr>
</tbody>
</table>

**Possible Examples**

- **Responding**
  - Turns head in response to stimulation or nourishment.
  - Turns head to seek source of stimulation or nourishment.
  - Responds involuntarily to a sudden loud noise or movement by extending arms and legs.

- **Exploring**
  - Turns head and reaches for a toy.
  - Kicks at a mobile when lying on back.
  - Rolls from stomach to back or from back to stomach.
  - Creeps or crawls toward a familiar adult.
  - Moves from lying down to a sitting position.
  - Moves by rolling body on the floor.
  - Moves by using arms to pull self forward.
  - Takes steps sideways or forward while holding onto furniture.
  - Walks forward steadily while pushing a cube chair.
  - Pulls up to a standing position while grasping an adult’s hands.
  - Stands up with support of a mobility aid, such as a walker.

- **Middle**
  - Runs with short, uneven steps with arms to the side.
  - Crouches down and jumps up, with heels barely coming off of the ground.
  - Hops with two feet leaving the ground momentarily.

- **Later**
  - Runs with long strides, showing arm and leg opposition (e.g., right arm and left leg).
  - Crouches down and then jumps forward using both legs.
  - Swings arms back and then forward in preparation for jumping.
  - Moves wheelchair through an obstacle course, first going straight, then turning quickly, then turning quickly again.

<tr>
<td><strong>Moves in basic and often involuntary ways</strong></td>
<td><strong>Uses arms, legs, or body to engage in simple, repeated actions on objects</strong></td>
<td><strong>Manipulates objects, using one or more body parts, with limited stability</strong></td>
<td><strong>Applies a variety of manipulative skills, in combination with locomotor skills, in different physical activities</strong></td>
</tr>
</tbody>
</table>

**Possible Examples**

- **Kicks legs.**
- **Extends arm.**
- **Flexes foot.**

<table>
<thead>
<tr>
<th><strong>Child is emerging to the next developmental level</strong></th>
<th><strong>Unable to rate this measure due to extended absence</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>○</td>
<td>○</td>
</tr>
</tbody>
</table>

**Gross Motor Manipulative Skills**

- **Responding**
  - Kicks against a nearby object.
  - Extends arm.
  - Flexes foot.
  - Rolls onto side, toward an object, while lying on a blanket.
  - Reaches toward a familiar adult, using both arms.

- **Exploring**
  - Bangs a cup on a table.
  - Splashes in water.
  - Kicks table leg while seated for snack.
  - Moves to a ball, pushes it away, then moves toward it and pushes it again.

- **Building**
  - Picks up and drops blocks while holding onto a low table.
  - Sits with legs apart and traps a rolling ball with arms.
  - Moves toward a large container while holding onto a beanbag, and then drops beanbag inside the container.
  - Crawls under table to retrieve a block; then crawls back out while holding the block.

- **Integrating**
  - Practices throwing a ball by bringing it behind the head, sometimes dropping it but retaining balance.
  - Approaches a stationary ball, stops, and pushes ball with foot, then steadies self.
  - Catches a ball while in a stationary position, using arms to bring it in and hold it against body.

- **Responding**
  - Uses arms, legs, or body to move toward or reach for people or objects.
  - Uses arms, legs, or body to engage in simple, repeated actions on objects.
  - Manipulates objects, using one or more body parts, with limited stability.

- **Exploring**
  - Uses arms, legs, or body in various ways to manipulate objects, while in positions such as sitting, moving on all fours, or upright, using support.
  - Uses arms, legs, or body to engage in simple, repeated actions on objects.
  - Manipulates objects, using one or more body parts, with stability but limited coordination.

- **Building**
  - Uses two or more movements sequentially to manipulate objects, sometimes pausing briefly between movements.
  - Coordinates arms, legs, or body to manipulate objects, with connected sequential or simultaneous movements.

- **Integrating**
  - Applies a variety of manipulative skills, in combination with locomotor skills, in different physical activities.

**Possible Examples**

- Uses arms, legs, or body to move toward or reach for people or objects.
- Uses arms, legs, or body to engage in simple, repeated actions on objects.
- Manipulates objects, using one or more body parts, with limited stability.

**Possible Examples**

- Uses two or more movements sequentially to manipulate objects, sometimes pausing briefly between movements.
- Coordinates arms, legs, or body to manipulate objects, with connected sequential or simultaneous movements.
- Applies a variety of manipulative skills, in combination with locomotor skills, in different physical activities.
### PD-HLTH 4: Fine Motor Manipulative Skills

**Child demonstrates increasing precision, strength, coordination, and efficiency when using muscles of the hand for play and functional tasks.**

**Developmental Domain: PD-HLTH — Physical Development—Health**

<table>
<thead>

<td>• Holds a cap off of a marker by twisting with one hand, then pulling with both hands in opposite directions.</td>
<td></td>
</tr>
<tr>
<td>• Makes small movements of arms and hands near the sides of body.</td>
<td>• Pulls an object closer, using a raking motion.</td>
<td>• Holds a stacking ring with full fist.</td>
<td>• Takes a napkin off of a table with one hand, then pulling with both hands in opposite directions.</td>
<td></td>
</tr>
<tr>
<td>• Curls fingers around an adult’s finger.</td>
<td>• Pushes hands against an adult.</td>
<td>• Holds a spoon with full fist while being fed by an adult with another spoon.</td>
<td>• Makes a necklace by stringing a variety of small beads with narrow holes.</td>
<td></td>
</tr>
<tr>
<td>• Brings fist to mouth.</td>
<td>• Uses fingers and palm to grasp toys of different shapes or sizes.</td>
<td>• Holds a spoon, using thumb and fingers.</td>
<td>• Uses a computer mouse to draw details of a picture on a computer screen.</td>
<td></td>
</tr>
</tbody>
</table>

**Mark the latest developmental level the child has mastered:**

- Child is emerging to the next developmental level
- Unable to rate this measure due to extended absence

---

*Children who do not have use of one or both hands may still be rated as demonstrating mastery at a level if they can accomplish the functional intent of the descriptor using other body parts, or prosthetic devices.*
**Developmental Domain: PD-HLTH — Physical Development–Health**

**PD-HLTH 5: Safety**

Child shows awareness of safety and increasingly demonstrates knowledge of safety skills when participating in daily activities*

---

### Mark the latest developmental level the child has mastered:

<table>
<thead>
<tr>
<th>Responding</th>
<th>Exploring</th>
<th>Building</th>
<th>Integrating</th>

</table>

**Reacts to unpleasant stimulation or events in basic ways**
- Reacts to unpleasant situations that make child feel unsafe
- Seeks to make contact with familiar adult
- Follows adults’ guidance about basic safety practices
- Follows basic safety practices, with close adult supervision
- Applies basic safety practices on own in familiar environments, with occasional adult reminders
- Communicates an understanding of some safety practices to others

**Possible Examples**

- Reacts to unpleasant stimulation or events in basic ways
  - Startles after hearing a loud noise.
  - Cries when touched by a cold washcloth.
  - Turns away from a loud noise.
  - Clings to a familiar adult after the adult’s grip loosens while child is being carried.
  - Turns away from an unfamiliar adult and moves toward a familiar adult.
  - Looks to a familiar adult before moving down a ramp.
  - Cries and looks for a familiar adult for comfort after falling down.
  - Stops running and walks after a familiar adult communicates, ”Use walking feet.”
  - Pats the classroom pet gently when a familiar adult communicates, “Gentle touches.”
  - Accepts a familiar adult’s hand and holds it when requested to before crossing the street.
  - Stops and reaches for an adult’s hand when approaching a crosswalk.
  - Tries to buckle own seat belt as an adult buckles other children in a multi-child stroller.
  - Seeks adult assistance to use a step stool in order to obtain an object out of reach.
  - Cleans up spills during a cooking activity.
  - Waits turn to climb ladder on outside play equipment, with an adult reminder.
  - Slows tricycle as a peer approaches.
  - Stays behind the boundaries set up by adults to designate the swing-set area.
  - Explains, “I wait for the walk sign and hold my mom’s hand before I cross the street.”
  - Shows helmet for an adult to put on child’s head before riding a tricycle on a family walk.
  - Communicates, “Slow down! No running inside!” to a peer.

---

*Children at the Building Later and Integrating Earlier levels still need adult supervision to carry out safety practices on their own.*

---

- ○ Child is emerging to the next developmental level
- ○ Unable to rate this measure due to extended absence
### Developmental Domain: PD-HLTH — Physical Development—Health

**PD-HLTH 6: Personal Care Routines: Hygiene**
Child increasingly responds to and initiates personal care routines that support hygiene

#### Mark the latest developmental level the child has mastered:

<table>
<thead>
<tr>
<th>Responding</th>
<th>Exploring</th>
<th>Building</th>
<th>Integrating</th>
</tr>
</thead>
<tbody>
<tr>
<td>Earlier</td>
<td>Later</td>
<td>Earlier</td>
<td>Later</td>
</tr>
<tr>
<td>Later</td>
<td></td>
<td>Middle</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>Later</td>
<td></td>
</tr>
</tbody>
</table>

#### Possible Examples

**Responding**
- Responds in basic ways during personal care routines that involve hygiene
- Responds in ways that demonstrate awareness of a hygiene routine
- Anticipates one or two steps of a hygiene routine
- Participates in own hygiene routines, with an adult
- Carries out some steps of own hygiene routines, with specific adult guidance or demonstration
- Carries out most steps of familiar hygiene routines, with occasional reminders of when or how to do them
- Initiates and carries out most steps of familiar hygiene routines on own
- Initiates and completes familiar hygiene routines on own

**Earlier**
- Looks at an adult’s face, or quiets, during a diaper change.
- Closes eyes when face is washed.
- Kicks legs during a diaper change.

**Later**
- Attends to an adult’s actions during diapering routine.
- Grabs for the washcloth as an adult washes child’s face.
- Shows excitement during bathtime.
- Pulls at diaper or pants when diaper needs to be changed.
- Puts hands under a faucet before an adult starts to turn on the water.
- Turns head toward or away from a tissue when an adult tries to wipe child’s nose.
- Communicates to an adult the need for help with toileting or for a diaper change.
- Rubs hands together under a faucet after an adult turns the water on.
- Tries to blow nose into a tissue held by an adult.
- Lines up at sink to wash hands before lunch time.
- Uses toilet (pulls down pants, sits, etc.), but may need an adult’s assistance with wiping.
- Gets a tissue and wipes own nose, with adult guidance to then throw tissue away and wash hands.
- Gets own toothbrush and gives it to an adult after meals when asked.
- Uses the toilet on own, and flushes after adult reminder.
- Washes and partially dries hands, and then dries them completely when suggested to by an adult.
- Takes toothbrush after an adult puts on toothpaste, begins to brush teeth, but needs to be reminded to brush teeth in the back of the mouth.
- Uses toilet on own, sometimes forgetting to do one step, such as washing hands.
- Washes hands before eating and usually remembers to use soap.
- Coughs and sneezes into elbow most of the time.
- Uses tooth on own, completing all steps, including washing hands.
- Goes to brush teeth after lunch, brushes teeth, and puts away toothbrush on own.

**Middle**

**Later**

**Earlier**

**Measure not rated:** this measure is not used for documenting progress or planning this child's learning activities and supports. (Required for children with IEPs)

<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- **Responding**
  - Responds in basic ways during dressing
  - Possible Examples:
    - Cries or fusses when diaper is changed.
    - Looks at adult while being dressed.
    - Blinks eyes as clothing is placed over head.

- **Exploring**
  - Responds in ways that demonstrate awareness of a dressing routine
  - Possible Examples:
    - Shifts body as an adult puts a clean diaper on child.
    - Squirms to avoid having shirt being pulled over the head while being dressed.
    - Allows an adult to move child’s arms while removing child’s jacket.

- **Building**
  - Anticipates one or two steps of a dressing routine
  - Possible Examples:
    - Extends arms out when an adult approaches with a jacket.
    - Leans toward an adult while a shirt is being put on child.
    - Holds a shirt’s sleeves up and then puts it on.

- **Integrating**
  - Participates with adult in dressing self
  - Possible Examples:
    - Pushes arms through the sleeves of a shirt held by an adult.
    - Lifts smock for an adult to pull it over child’s head.
    - Lifts one leg, then the other, while an adult guides child’s legs into pants.

**Possible Examples**

- Mark the latest developmental level the child has mastered:
  - ○ Child is emerging to the next developmental level
  - ○ Unable to rate this measure due to extended absence

---

**PD-HLTH 8**

---

---
## Developmental Domain: PD-HLTH — Physical Development–Health

### PD-HLTH 9: Active Physical Play

Child engages in physical activities with increasing endurance and intensity*

<table>
<thead>
<tr>
<th>Mark the latest developmental level the child has mastered:</th>
<th>Responding</th>
<th>Exploring</th>
<th>Building</th>
<th>Integrating</th>
</tr>
</thead>
<tbody>
<tr>
<td>Earlier</td>
<td>Later</td>
<td>Earlier</td>
<td>Middle</td>
<td>Later</td>
</tr>
<tr>
<td>Possible Examples</td>
<td>Engages in brief instances of physical play</td>
<td>Engages in active physical play for short periods of time</td>
<td>Engages in active physical activities or play for moderate amounts of time</td>
<td>Engages regularly in active physical activities or play for sustained periods of time, with occasional bursts of intensity</td>
</tr>
<tr>
<td></td>
<td>There are no earlier levels for this measure</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Pushes a wheeled toy for a short distance.</td>
<td>• Hops with two feet, pauses, and then hops again, while pretending to be a bunny.</td>
<td>• Jumps, moves, and waves a streamer in different ways while moving around the playground in a parade.</td>
<td>• Creates an obstacle course with peers and challenges others to see who can move the fastest through the course two times.</td>
</tr>
<tr>
<td></td>
<td>• Climbs up a small slide, sits down, slides, and then goes to another activity.</td>
<td>• Runs to the ladder of a slide outdoors, climbs the ladder, and slides.</td>
<td>• Joins a group of peers kicking and chasing a soccer ball around a play yard.</td>
<td>• Joins a group of children playing chase, while propelling own wheelchair.</td>
</tr>
<tr>
<td></td>
<td>• Puts toys in a wagon and pulls the wagon around the room.</td>
<td>• Holds a drum and marches with a peer during part of a song.</td>
<td>• Rides around the bike trail several times, increasing speed to pass a peer.</td>
<td>• Initiates a dance activity, keeping up with a fast beat until the music ends.</td>
</tr>
<tr>
<td></td>
<td>• Lies prone on a scooter board and uses hands to push self around the room.</td>
<td>• Jumps, moves, and waves a streamer in different ways while moving around the playground in a parade.</td>
<td>• Races to the fence and back several times, while using a mobility device (e.g., walker, crutches, wheelchair).</td>
<td></td>
</tr>
</tbody>
</table>

*Intensity of active physical play and amount of strength required to engage in the activity will vary greatly from child to child. When observing a child, it is important to consider the child’s capacity for engaging in vigorous active physical play, in which a child’s heart is beating faster and the child is breathing harder than is typical for the child when engaged in daily activities or routines.*

- ○ Child is not yet at the earliest developmental level on this measure
- ○ Child is emerging to the next developmental level
- ○ Unable to rate this measure due to extended absence

---

PD-HLTH 9: Active Physical Play

---

**Developmental Domain: PD-HLTH — Physical Development–Health**

### PD-HLTH 10: Nutrition

Child demonstrates increasing knowledge about nutrition and healthful food choices

**Mark the latest developmental level the child has mastered:**

<table>
<thead>
<tr>
<th>Responding</th>
<th>Exploring</th>
<th>Building</th>
<th>Integrating</th>
</tr>
</thead>
<tbody>
<tr>
<td>Earlier</td>
<td>Later</td>
<td>Earlier</td>
<td>Middle</td>

<td>Middle</td>
<td>Later</td>
<td>Earlier</td>
</tr>
</tbody>
</table>

- **Possible Examples**
  - **Responding**
    - There are no earlier levels for this measure
  - **Exploring**
    - Shows a preference for several favorite foods
    - Shows interest in a variety of foods
    - Recognizes or identifies a variety of foods
    - Demonstrates knowledge of the characteristics of a variety of foods
    - Shows awareness that some foods are more healthful than others
  - **Building**
    - Communicates simple explanations about the healthfulness of different food choices
  - **Integrating**
    - Communicates, "Me gustan las bananas y las manzanas," ["I like bananas and apples," in Spanish] when selecting bananas and apples from a plate of sliced fruit.
    - Communicates, "This rice is sticky."  
    - Communicates, "I like mangos. They're sweet."  
    - Communicates, "First we eat vegetables, and later we can have dessert."  
    - Communicates, during pretend play, "First we eat vegetables, and later we can have dessert."
  - **Integrating**
    - Communicates, "This rice is sticky."  
    - Communicates, "I like mangos. They're sweet."  
    - Communicates, "First we eat vegetables, and later we can have dessert."
    - Communicates, during pretend play, "First we eat vegetables, and later we can have dessert."  
    - Communicates, "Me gustan las bananas y las manzanas," ["I like bananas and apples," in Spanish] when selecting bananas and apples from a plate of sliced fruit.
    - Communicates simple explanations about the healthfulness of different food choices

- **Marking Criteria**
  - ○ Child is not yet at the earliest developmental level on this measure
  - ○ Child is emerging to the next developmental level
  - ○ Unable to rate this measure due to extended absence

---

**Conditional Measure**

- Measure not rated: this measure is not used for documenting progress or planning this child's learning activities and supports. (Required for children with IEPs)
Glossary of Terms and Phrases Used in the DRDP (2015)

**Assemblage:** An artistic composition made from scraps, junk, or odds and ends.
Appears in VPA 1: Visual Art

**Investigates/Investigation:** In the process of scientific inquiry, asking a question and conducting systematic observations or simple experiments to find an answer.
Appears in:
COG 9: Inquiry Through Observation and Investigation
COG 10: Documentation and Communication of Inquiry

**Locomotor Skills:** The ability to project the body into or through space.
Appears in:
PD-HLTH 2: Gross Locomotor Movement Skills
PD-HLTH 3: Gross Motor Manipulative Skills

**Manipulative Skills:** Also known as object-control skills in which the arms, hands, legs, and feet are used to give force to an object (for example, throwing a ball) or to receive and absorb the force from an object (for example, catching a ball).
Appears in PD-HLTH 3: Gross Motor Manipulative Skills

**Observes / Observation:** Gathering information about objects and events by using the senses of sight, smell, sound, touch, and taste and noticing specific details or phenomena that ordinarily might be overlooked.
Appears in:
COG 9: Inquiry Through Observation and Investigation
COG 10: Documentation and Communication of Inquiry

**Onset:** The first consonant or consonant cluster in a syllable (e.g., the *h* in the one-syllable word *hat*; the *m* and *k* in the two syllables in the word *monkey*).
Appears in LLD 8: Phonological Awareness

**Rime:** A linguistic term that refers to the portion of a syllable that starts with a vowel. In the word *big*, the rime unit is /ig/. In the word *bring*, the rime unit is /ing/.
Appears in LLD 8: Phonological Awareness

Appendix B: Resources for Assessing Children who are Dual Language Learners with the DRDP (2015)

The DRDP (2015) takes into consideration the specific cultural and linguistic characteristics of California's diverse population of young children, with specific consideration for children who are young dual language learners. The introduction in the DRDP (2015) Assessment Manual provides information on completing the assessment with young children who are dual language learners. Keep in mind that young dual language learners may demonstrate knowledge and skills in their home language, in English, or in both languages. Communication in all languages the child uses should be considered when collecting documentation and completing the measures in all domains of the DRDP (2015).

The following resources will increase your knowledge and help you better complete the DRDP (2015) for young children who are dual language learners.

| From the California Department of Education | Two papers in this series are particularly relevant: “Assessment of Young Dual Language Learners in Preschool” focuses on the need for accurate and valid assessment of young dual language learners. It includes a decision tree for practitioners to determine in which language to assess young DLLs, a matrix of language and literacy assessment for use with preschool-age children, and a sample family interview protocol to learn about families’ language practices. “Early Intervention and Young Dual Language Learners with Special Needs” addresses the language development of young dual language learners with special needs and key considerations when choosing the language for intervention. | www.cde.ca.gov/sp/cd/ce/documents/dllresearchpapers.pdf |
| California's Best Practices for Young Dual Language Learners: Research Overview Papers | - Understanding Dual Language Development  
- Assessing Young Dual Language Learners  
- English Language Development (ELD) Foundations  
- Supporting Dual Language Learners | desiredresults.us/dll/index.html |
| California Department of Education web pages: | This document, often known as the PEL Guide, provides research related to dual language learning and practices to support children's learning and development. It is available in Spanish and English, and also has an accompanying DVD titled "A World Full of Language." | www.cde.ca.gov/sp/cd/re/documents/psinglearnersed2.pdf |
| From the Office of Head Start National Center on Cultural and Linguistic Responsiveness | Gathering and Using Language: Information that Families Share | One-third of the children in Early Head Start and Head Start are Dual Language Learners (DLLs). Recent research provides insights into dual language development and key ways to support children's progress. | eclkc.ohs.acf.hhs.gov/culture-language/ |
| Code Switching: Why It Matters and How to Respond (Workbook for Early Head Start/Head Start Programs) | This easy to use workbook defines and describes code switching. It identifies which children code switch and explains why code switching matters. It also includes numerous examples of how adults can provide strong language models for children when they code switch. | eclkc.ohs.acf.hhs.gov/culture-language/article/code-switching-why-it-matters-how-respond |
| From the Center for Early Care and Education Research – Dual Language Learners (CECER-DLL) | Development of Infants and Toddlers Who Are Dual Language Learners | This paper reviews empirical research about the development of infants and toddlers who are dual language learners (DLLs) looking at formation of attachment relationships; development of motor skills; the foundation for executive functioning skills to regulate behaviors; huge advances in detection, comprehension, and production of language; and many more developmental accomplishments. | fpg.unc.edu/resources/working-paper-2-development-infants-and-toddlers-who-are-dual-language-learners |
| From the Council for Exceptional Children/Division for Early Childhood (DEC) | YEC Monograph 14: Supporting Young Children who are Dual Language Learners with or at-risk for Disabilities | Considers contemporary perspectives about strategies to support young children who are dual language learners served in inclusive early childhood settings. Information included in this monograph will be immediately useful for practitioners and families and will demonstrate the value of thoughtfully and systematically approaching assessment, interventions, and services for the benefit of children who are dual language learners and their families. | www.dec-sped.org/product-page/young-exceptional-children-monograph-14 |
| From the Educational Testing Service (ETS) | Enhancing Young Hispanic Dual Language Learners’ Achievement: Exploring Strategies and Addressing Challenges | This education policy report explores issues related to improving instruction in programs serving preschool-aged children focusing on young Hispanic dual language learners. Assessment is addressed in the section titled: Improving Teachers’ Practice through the Assessment of Young Dual Language Learners | onlinelibrary.wiley.com/enhanced/doi/10.1002/ets2.12045/ |
Appendix C: Strategies for Observation and Documentation

The DRDP (2015) is administered through observation in natural settings by teachers and other service providers in the classroom or center and by family members in home and community settings. Observations are embedded into typical, ongoing routines and activities throughout the day. The process of observation requires planning in advance on the part of teachers and service providers. As you review the measures of the DRDP (2015), consider specific routines or activities during the day where you would be able to observe more than one measure or more than one child.

Strategies for Effective Observation

Observation should be ongoing throughout the year. The assessment windows for the DRDP (2015) provide a period of time to make sure teachers and service providers have sufficient documentation for each of the measures in time to submit DRDP data. To rate a child's behavior, teachers and service providers should use naturalistic, or authentic, observation strategies. Below are several key points to support naturalistic observations. You will find additional information about naturalistic assessment by viewing the short video, What is Authentic Assessment at draccess.org/guidancefordrdp. Many observation and documentation job aids can be found at desiredresults.us/teachers. You will also find a training DVD, Getting to know You Through Observation, at wested.org/resources/getting-to-know-you-through-observation that can be used by ELCD and other administrators to train staff.

Strategies for Effective Documentation

A variety of methods are available for recording information gathered through naturalistic observations, including:

- **Anecdotal Records** – An anecdotal record is a written note about what a child does or says during a typical or routine activity. Anecdotal records result in brief descriptions of the behavior observed.

- **Event recording (tallying)** – In event recording, the observer records each instance of the behavior being observed so that an indication of frequency is obtained. Usually this is done with tally marks but may also be recorded using a code such as “+” for correct and “−” for incorrect.

- **Checklists** – Checklists are lists of specific skills or behaviors that can be used during observation to check off the behaviors observed with a group of children.

- **Rating Scales or Rubrics** – Rating scales and rubrics are similar to checklists in that they include lists of behaviors but they also include additional descriptive information about the behavior such as how well, how frequently or how independently the behavior occurred.

10 Strategies for Naturalistic Observation

- **Know the instrument** – Be familiar with the instrument, including the domains and measures being observed.

- **Observe naturally** – Observe the child in the context of typical routines and activities, interacting with familiar people, in familiar places, and with familiar materials.

- **Observe objectively** – Focus on what the child does. Be as objective and detailed as possible. Avoid using labels, qualitative descriptors, or stereotypic expectations that may bias your observations.

- **Observe strategically** – Observe for skills that correspond to the DRDP measures and record your observations. You may be able to gather information on more than one measure during one observation.

- **Observe daily or routinely** – When observations are part of the daily routines, children become accustomed to being observed and seeing notes being recorded.

- **Observe variety and consistency** – Be aware of a child’s overall performance, even when focusing on a single aspect of behavior. Observe the child over time and during different routines and activities.

- **Be specific and complete** – Intentionally and purposefully record the specific details of what you actually observe as soon as possible. Details are important and might be easily forgotten.

- **Plan ahead** – Plan for observations as part of weekly lesson planning. Plan to observe during activities that do not require your full assistance or plan for someone else to observe and document.

- **Allow time** – Allow adequate time for the child to complete any task that he or she is engaged in even if it requires more time than one might expect.

- **Use appropriate adaptations** – Ensure that appropriate adaptations as determined by the IFSP or IEP team are in place when observing the child.

- **Work Samples** – Documentation can also include the collection of 2- or 3- dimensional products that children have produced such as drawings, writing on paper or 3-dimensional constructions the child has made for example with play dough or other materials.

- **Videos or Photographs** – Cameras can be used to document observed behaviors of children through videos or still photographs.

Information on strategies for implementing the above documentation strategies can be found at: eclkc.ohs.acf.hhs.gov/hslc/tta-system/teaching/practice/iss-library.html
Consider the following for planning and collecting documentation:

- Choose methods of documentation that can be embedded into a program’s environment, structure, and routines.
- Plan ahead for materials needed for documentation such as sticky notes or pre-printed labels with children’s names for anecdotal records or clipboards with checklists or rubrics. Materials should be strategically located throughout the classroom.
- Observe children’s behaviors throughout the day and record documentation while observing.
- Date each piece of evidence for future reference.
- Collect documentation over time. Documentation over time strengthens the validity of ratings.
- Organize the documentation collected immediately after collecting it.
- Keep assessment information confidential. Store the DRDP materials, including notes, in a secure location to ensure confidentiality for each child.

**Organizing Documentation**

**Portfolios:** Portfolios are a helpful way of organizing information. ELCD programs are required to use a form of portfolio to organize documentation. Portfolios may contain anecdotal notes, children’s work samples, photos of children’s activities, audio or video recordings, and transcripts of the child’s language. The portfolio methods selected should work well for the program.

**Electronic Portfolios:** If notes are entered into a computer, an electronic portfolio can be produced to summarize the evidence. Please check with a local administrator for procedures regarding consent for photography and video.

**Collaboration to Support Effective Documentation**

A central goal for teachers and service providers who use the DRDP (2015) is to obtain measures of the child’s developmental progress based on typical day-to-day behaviors. It is difficult to imagine one individual having access to all of the many learning opportunities that a child encounters throughout each day. Therefore, it is very helpful to seek input from individuals who have ongoing contact and who know the child well in order to obtain the most complete and accurate picture of the child’s skills and abilities. It is important to consider how and when collaborating with others will support and help to inform the accurate rating of measures for the DRDP (2015).

Although direct observation of a child is the primary method used to inform ratings, other sources of evidence should be used to supplement observations. Gathering information from others who know the child well such as family members, caregivers, or other service providers often provides a wealth of additional information about a child’s skills, knowledge, and behaviors. This also provides the additional benefit of observations across different settings. There are numerous ways that others can collaborate in sharing information such as written observations, conversations that focus on a child’s development, or viewing short videos or recordings that illustrate a child’s behavior in typical routines and activities.

Planning ahead can make the process of collaboration more helpful. Identify early on in your relationship with the child’s family, who else might provide helpful information to assist in documenting their child’s development. Make sure that the family is well informed about the purpose of the DRDP (2015) and the important role that they can play in sharing their observations about their child. With the family’s permission, communicate with other individuals who know the child and strategize with them how they might be able to share information with you.

Communication is key to successful collaboration. For a more detailed look at collaboration and the assessment process please refer to Appendix F.
Adaptations are changes in the environment or differences in observed behavior that allow children with Individualized Family Service Plans (IFSPs) or Individualized Education Plans (IEPs) to demonstrate their knowledge and skills in their typical environments. Adaptations that are in place for the child during the normal course of the day should also be in place during observations for the DRDP (2015). New adaptations should not be introduced solely for the purpose of conducting an assessment. Seven broad categories of adaptations are used with the DRDP (2015). This is the same system of adaptations developed for and used in the DRDP access.

1. Augmentative or Alternative Communication Systems

Augmentative and alternative communication systems are methods of communication other than speech that allow a child who is unable to use spoken language to communicate with others. An augmentative communication system is used to augment or facilitate the development of speech. An alternative communication system is used in place of speech. Some examples include sign language, picture cards, and electronic communication devices. Assessors should use these systems as part of the observation of a child using language in a natural context. Assessors should not just elicit responses or contrive adult-directed situations.

If American Sign Language is the child's primary language, it is designated as the home language, and not an adaptation. If sign language is used as a bridge to learning verbal language, then it is considered an adaptation.

2. Alternative Modes for Written Language

Alternative Modes for Written language are methods of producing written language used by a child who cannot see well enough or cannot hold and manipulate a writing utensil well enough to produce written symbols. If a child cannot see or cannot hold a pencil or marker, this adaptation may be used to assist in reading or writing, or emergent reading or writing. Examples of this adaptation include using a Braillewriter, keyboard, or computer.

Naturally, preschool-age children are not proficient at reading and writing. This adaptation allows for children to explore reading and writing and develop their skills in a developmentally appropriate manner.

3. Visual Support

Visual supports are adjustments to the environment that facilitate a child's ability to see or to understand the surrounding environment or events. Acceptable visual supports include:

- Adjustments in contrast
- Adjustments in lighting
- Distance from objects
- Increased size of materials
- Verbal description of events

4. Assistive Equipment or Devices

Assistive equipment or devices are tools that make it possible or easier for a child to perform a task. The child should be familiar with the use of the device. Any type of adaptive equipment or assistive device that the child needs for mobility, positioning or manipulating objects is acceptable, including:

- Walkers
- Standers

5. Functional Positioning

Functional positioning enables postural support that allows a child to have increased control of his body. It is important that positioning devices are available to the child across settings so that the child may access daily routines and activities and so they may be observed in a variety of activities. Some examples include:

- Standers
- Cube chairs
- Tricycles with seat belts and built-up pedals

6. Sensory Support

Sensory support includes either increasing or decreasing sensory input to facilitate a child's attention and interactions in the environment. Some children may need increased sensory input and others may need decreased input. Some children require different types of sensory support in different activities. Sensory support may include:

- Reducing background noise
- Adjusting tactile stimulation
- Adjusting visual stimulation

7. Alternative Response Mode

Using alternative response modes means recognizing that a child might demonstrate mastery of a skill in a way that differs from a typically developing child. For this adaptation, the environment is not modified as in the other adaptations. Rather, the child's unique yet consistent responses that may indicate the presence of a skill are identified. For example, the child with autism may look out of the corner of his or her eye instead of establishing direct eye contact, or the child with a physical impairment may use atypical movement patterns. The form of a child's response may differ from that of his peers and still be considered to demonstrate mastery of a skill.
Appendix E:
Resources for Working in Partnership with Families

A central goal of the DRDP is to identify a child's developmental progress based on typical, day-to-day behaviors. It is appropriate to seek input from individuals who have ongoing contact with the child and know the child well. Family members' descriptions of their child's behavior in the home or in community settings will help teachers and service providers know more about the child's behaviors across settings, particularly for those skills the child may not demonstrate routinely in the educational setting; and help teachers and service providers obtain more comprehensive information in order to make accurate ratings for the DRDP (2015).

Family members may participate in the DRDP assessment in a number of ways:

• Inform the child's teachers and service providers of the child's history for a more complete picture of the child.
• Share the skills they see their child using in typical activities, and might share these skills via stories, photos, drawings, observations, and/or video clips.
• Share the child's strengths, areas they wish to focus on, and areas of growth they observe.
• Become informed about the next steps in their child's development.
• Help determine which adaptations will help their child participate in everyday activities (for children with an Individualized Family Service Plans (IFSPs) or Individualized Education Program (IEPs)) and share with the team adaptations the child uses at home, at school, and in other settings.

Below are resources to assist families in knowing more about the DRDP (2015) and the skills assessed as well as resources to assist teachers and service providers in working as partners with families in the assessment process.

Resources for Families

Overview of the DRDP (2015) for Families:
daccess.org/OverviewOfDRDP2015forFamilies.html
A document describing how the DRDP (2015) works for children, including those with IFSPs and IEPs; and how it benefits families, children, providers, and programs.

All About Young Children: allaboutyoungchildren.org
A website for families describing skills that help children learn including how they learn language, how they learn about feelings and relationships, how they learn about numbers, and how they become skilful at moving their bodies. (Available in eight different languages.)

California MAP to inclusion and Belonging:
cainclusion.org/cmap/map-project-resources/county-specific-resources
The MAP Project website supports the inclusion of children with disabilities and other special needs ages birth to 21 in child care, after school and community settings. It includes links to resources on topics related to families and children with IFSPs and IEPs. The website contains a statewide interactive directory by county, of Family Resource Centers (FRC), Special Education Local Plan Areas (SELPA), Regional Centers, Head Start, and more for families of children with IFSPs and IEPs.

Desired Results for Children and Families, Information for Families brochure:
desiredresults.us/families
A brochure describing the Desired Results System for families.

Watching My Child Grow: desiredresults.us/families
A DVD that describes the Desired Results Assessment System and its benefits for all children and families from the voices of parents. Call 1-800-770-6339 or visit the website.

Resources for Teachers and Service Providers

A document that addresses the perspectives of parents and program staff in the sharing of child assessment information through the formation of partnerships and suggests strategies for bringing those perspectives together.

The Role of Family Observations: daccess.org/RoleOfFamilyObsv.html
A document describing the research findings that suggest parents' observations are reliable and valid and should be considered an essential component of a comprehensive assessment process.

Supporting Children and Families Living in Homeless Situations

CDE Homeless Education website: www.cde.ca.gov/sp/hs/
The McKinney-Vento Act defines homelessness as individuals who lack a fixed, regular, and adequate nighttime residence. This definition also includes individuals who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; who may be living in motels, hotels, trailer parks, shelters, public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings; or who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings.

Homeless children and youths have the right to access the same free, appropriate public education, including public preschools, as provided to other children. The website above addresses these rights, and provides educational information and resources for families and educators.
Supporting Children in Foster Care

CDE Foster Youth Services website: www.cde.ca.gov/ls/pf/fy/

Children in foster care face significant barriers to positive educational experiences and academic achievement. A large percentage of children placed in foster care experience physical and emotional trauma as a result of abuse, neglect, separation from family, and impermanence. Although youth are placed in foster care for their safety, foster youth often do not find the security and stability they need through the foster care system. Most children who enter foster care have been exposed to many conditions that have undermined their chances for healthy development and learning.

On average, children who enter the foster care system have experienced more than 14 different environmental, social, biological, and psychological risk factors before coming into care, all impacting learning. These factors often include abuse and neglect, exposure to illicit drugs, and poverty. Once in foster care, they often experience other challenges to their well-being. They may be separated from their brothers and sisters, moved from one foster care placement to another, experience frequent changes in home placements or school placement, or caseworkers who may lack the resources to effectively advocate and plan for their best interests.

The California State Legislature recognizes that a high percentage of foster youth are working substantially below grade level, are being retained at least one year at the same grade level, and are becoming school dropouts. In response, the legislature declared that the instruction, counseling, tutoring, and provision of related services for foster youth be a state priority and mandated the Foster Youth Services Coordinating (FYSC) Programs through California Education Code sections 42920–42925. The Program provides services to all foster children and youth attending schools in each county.

The website addresses foster children’s rights, and provides educational information and resources.

Appendix F:  
Collaboration to Complete the DRDP (2015)

“The most valuable resource that teachers have is each other. Without collaboration our growth is limited to our own perspectives.” – Robert John Meehan

Collaborating with Others Who Know the Child Well

Our understanding of young children is strengthened when we commit to partnerships with individuals, including family members, who know the child well and in different settings. Collaboration in gathering and sharing information is important because it affords us windows into a child’s life and offers perspectives that enhance our understanding of a child’s skills and behaviors. Identifying and communicating with the individuals who can collaborate on rating the measures of the DRDP (2015) is an essential step in this process.

Through collaboration, early educators and special educators each bring their skills and perspectives. Early educators contribute by providing a picture of the child in the context of a classroom setting. Special education providers contribute by identifying perspectives on a child’s unique learning needs and specific understanding of a child’s disability including materials that should be available and adaptations that should be in place. This lays the foundation for teachers and service providers to complement one another’s work in assessing a child’s skills and development. Shared information can build relationships that lead to joint decision-making not only about the assessment process but also about curriculum, instruction, supports, and services that can build relationships that lead to joint decision-making not only about the child’s unique learning needs and specific understanding of a child’s disability including materials that should be available and adaptations that should be in place.

Collaboration to share assessment observations and evidence for completing the DRDP (2015) is built on relationships and a commitment to ongoing communication. It is developed over time with an understanding of each person’s role. Aim for multiple informal strategies that can be used on a daily basis. Identifying mutual interests in supporting the child is important. Some questions that address joint interests include:

- What are the child’s goals?
- What specialized equipment or adaptations are used?
- How will the goals be infused into the child’s day and into learning activities?
- How will we know our strategies are working?

Collaborating with others in the assessment process is especially important in situations where the child is served by multiple providers. For example, a child may attend an early education program and also receive special education services, such as speech-language, occupational, and/or physical therapy. Early education teachers and special education providers can work hand-in-hand to complete the observations and DRDP (2015) ratings for children who are dually enrolled in both programs. How this collaboration will take place – who will be involved and what roles each individual will play – will vary depending on the situation. Teachers and service providers have reported the following helpful strategies:

- sharing information, including observations, adaptations, curriculum and program goals, and IFSP outcomes or IEP goals
- providing anecdotal notes
- sharing work samples and portfolios
- reviewing reports of DRDP (2015) results together

Increasingly, teachers and providers are utilizing technology such as short video clips or recordings, with family permission, to share information and observations. The DRDP (2015) app helps teachers collaborate, as well as using technology such as email, phone conferences and free web conferencing platforms. Local policies on using devices should be followed and child information should not be sent via email.

The early education teacher and special education service provider responsible for completing the DRDP (2015) should each take the lead in partnering with others who work with the child. The general educator is responsible for entering DRDP data into DRDPtech. The special educator is responsible for reporting and entering the assessment data on children who have IEPs or IFSPs to the SELPA. However, except for data reporting, the assessment can be completed together by both educators, a copy of the Rating Record held by each of them for their respective reporting. Suggestions to help get started working together include:

- Make an initial plan detailing areas to be observed directly and those areas in which others may have a more thorough knowledge of the child. The general education teacher can provide information on all domains. A speech-language therapist might inform measures in the Language and Literacy Domain. Families and special education providers including physical and occupational therapists are a good source of information for measures in the Physical Development and Health Domain.
- Contact the individuals who will collaborate to discuss the mutual goal of completing the assessment and to develop a plan for working together.
- Develop a timeline that is acceptable to all partners, including identifying deadlines and strategies to meet timelines.
- Collect any signature requirements for sharing child information from the family.
- Gather multiple perspectives and consider input from family and others who know the child during assessment.
- Determine when and how communicating about updates and results will occur.

- How will we know our strategies are working?
- What are the child’s goals?
- What specialized equipment or adaptations are used?
- How will the goals be infused into the child’s day and into learning activities?
- How will we know our strategies are working?

Collaborating with Others Who Know the Child Well

Our understanding of young children is strengthened when we commit to partnerships with individuals, including family members, who know the child well and in different settings. Collaboration in gathering and sharing information is important because it affords us windows into a child’s life and offers perspectives that enhance our understanding of a child’s skills and behaviors. Identifying and communicating with the individuals who can collaborate on rating the measures of the DRDP (2015) is an essential step in this process.

Through collaboration, early educators and special educators each bring their skills and perspectives. Early educators contribute by providing a picture of the child in the context of a classroom setting. Special education providers contribute by identifying perspectives on a child’s unique learning needs and specific understanding of a child’s disability including materials that should be available and adaptations that should be in place. This lays the foundation for teachers and service providers to complement one another’s work in assessing a child’s skills and development. Shared information can build relationships that lead to joint decision-making not only about the assessment process but also about curriculum, instruction, supports, and services that can build relationships that lead to joint decision-making not only about the child’s unique learning needs and specific understanding of a child’s disability including materials that should be available and adaptations that should be in place.

Collaboration to share assessment observations and evidence for completing the DRDP (2015) is built on relationships and a commitment to ongoing communication. It is developed over time with an understanding of each person’s role. Aim for multiple informal strategies that can be used on a daily basis. Identifying mutual interests in supporting the child is important. Some questions that address joint interests include:

- What are the child’s goals?
- What specialized equipment or adaptations are used?
- How will the goals be infused into the child’s day and into learning activities?
- How will we know our strategies are working?
Collaborating with Families

Gathering family perspectives about their child’s development and behavior provides important and valid data, which is useful for making informed assessment decisions. Research suggests that family observations are reliable and valid and should be considered an essential component of a comprehensive assessment process. Inviting parents and other family members to share observations of their child’s development and behavior is required for ELCD programs and is good practice in all early childhood settings and programs.

When families collaborate with teachers and service providers in sharing their observations about their child’s behaviors in the home or in community settings, it provides a richer and broader view of a child. Information from families helps to identify skills and behaviors that the child may not demonstrate routinely in the educational setting. For example, a teacher or therapist may not regularly observe a child’s dressing or other self-help skills. However, families have repeated opportunities to observe their child’s self-help skills both over time and in different settings. Parent observations support more accurate reporting about a child’s skills.

Strategies for gathering information from families include the following:

- Make sure that families understand the skills and behaviors described in the DRDP (2015) measures. Teachers and service providers understand expected sequences of child development and are trained about how items on the DRDP (2015) reflect these sequences. Parents might not understand fully the meaning of measures without explanations or examples. It may be useful to provide families with examples of the kinds of behaviors to look for or the routines and activities that might provide a context for a behavior. For example, rather than ask a parent to describe a child’s grasping pattern, inquire about how a child picks up small pieces of cereal during mealtimes.

- It is reasonable for the observations of parents and practitioners to differ across the range of behaviors being rated. A child’s behavior during activities and routines that occur in the classroom setting may differ from the same child’s behavior in activities and routines in home or community settings. Not all perspectives about children’s behavior based on parent or practitioner observations will be congruent. Rather, aim for convergence or the pooling of perspectives from all who know the child and have had repeated opportunities to observe behavior in different settings.

The ongoing conversations that we have with family members during our typical interactions with them are rich opportunities for learning about their child. Leading a focused conversation with a family is particularly important to obtain information on measures that you have not had the opportunity to observe. During these conversations, focusing on routines and activities provides a very useful context for asking a family about their child’s everyday learning opportunities and skills. The four steps in the resource listed below will guide you in planning and leading focused conversations with families to help complete the DRDP (2015). If this is the first DRDP (2015) assessment that you will be completing with a particular child, be sure that you have spent enough time getting to know the child by observing the child’s skills during typical routines/activities and by having conversations with the family.

For more information

DEC Recommended Practices in Early Intervention/Early Childhood Special Education 2014

Developed to provide guidance to practitioners and families about the most effective ways to improve the learning outcomes and promote the development of young children, birth through age 5, who have or are at-risk for developmental delays or disabilities. The purpose is to help bridge the gap between research and practice by highlighting those practices that have been shown to result in better outcomes for you.
